Climate Change and Social Justice Jeremy Moss,2009-06-16 The impacts of climate change can already be felt in society and on the Earth itself As new evidence of the environmental impact of climate change is constantly emerging we are forced to confront the significance of our political decisions about who will pay the price of responding to a changing climate In the rush to avoid or reduce the repercussions of climate change we need to ensure that the burden is evenly distributed or run the risk of creating injustice Climate Change and Social Justice demonstrates that the problem of how to distribute the costs of climate change is fundamentally a problem of justice If we ignore the concerns addressed this book the additional burdens of climate change will fall on the poor and vulnerable Jeremy Moss brings together today s key thinkers in climate research including Peter Singer Ross Garnaut and David Karoly to respond to these important issues

Childhood and Consumer Culture D. Buckingham,V. Tingstad,2010-08-11 In recent years children have become an increasingly important consumer market and there is growing concern about the commercialisation of childhood This book sheds light on these debates offering new empirical data and challenging critical perspectives on children s engagement with consumer culture from a wide range of international settings
