## **The Divided China Problem Conflict Avoidance And Resolution:**

**The Divided China Problem** Linda Chao,Ramon Hawley Myers,2000 **The Divided China Problem: Conflict Avoidance and Resolution** , The Divided China Problem Conflict Avoidance and Resolution is a 2000 essay written by Linda Chao and Ramon H Myers The Hoover Institution on War Revolution and Peace of Stanford University in California presents a summary and a full text version of the essay online Chao and Myers discuss the origins of the divided China problem and how it has become a troublesome factor in Sino U S relations The authors argue that the U S government and the U S Congress should extend military support for the Republic of China regime only on the condition that it negotiate with the People s Republic of China regime under the one China principle to resolve the divided China problem **Tensions in the Taiwan Strait** Keiko Hirata,Hidekazu Sakai,2026-02-20 This edited volume offers international perspectives on managing the escalating tensions surrounding Taiwan The book examines responses of key stakeholders to the issue including Japan Australia South Korea India Canada the Association of Southeast Asian Nations the United Kingdom and the European Union The chapters analyze how these states navigate and manage the intricacies of the US China rivalry over Taiwan focusing on strategies such as balancing and hedging While existing works explore the policies of China Taiwan and the United States regarding Taiwan s status there is little scholarship addressing the stances other international stakeholders This volume fills that gap by analyzing the strategies and policies these stakeholders adopt to deter China their efforts to safeguard economic and political interests and the challenges they face in balancing relations with the US China and Taiwan Collectively the chapters deepen our understanding of the strategic dynamics surrounding Taiwan and shed light on the roles played by key actors striving to uphold peace and stability in the Indo Pacific This book will be of interest to students of Asian security Chinese politics and International Relations **No More States?** Richard N. Rosecrance,Arthur A. Stein,2006-08-04 The twentieth century witnessed an explosion of new nations carved out of existing ramshackle empires and multiethnic states Many observers contend that the creation of new states will continue indefinitely with the two hundred of today becoming the four hundred of tomorrow as more groups seek independence This provocative and compelling book explores the impact of globalization and terrorism on this trend arguing convincingly that the era of national self determination has finally come to an end Examining the forces that determine the emergence of new nation states the distinguished contributors consider a rich array of specific cases from the Middle East Asia North America Europe and Russia where new states could be created They contend that globalization rather than expanding such opportunities is not as friendly to new weak states with limited resources as it is to established rich nations Given the vast sums circulating in the world market few fledgling nations can be financially independent They find it more prudent to shelter within the protective embrace of existing federations Equally governments of federal states can induce restive petitioners\_ such as Quebec Scotland and the Basques\_ to remain inside the metropolitan boundary through a system of tangible restraints and rewards Those who reject the benefits such as rebels in

Chechnya and Aceh will fail in their bids for independence Taiwan\_poised on a knife edge between integration with China and independence\_faces a series of costs and diminished returns if it seeks full statehood Finally terrorism has lost its legitimacy as a technique for gaining independence in the eyes of the international community Despite the stall in new state formation there has been no sign of successful military or imperial expansion by established countries toward consolidation into fewer larger national units Neither aggression by regional states\_such as the Iraq invasion of Kuwait in 1990 nor intervention\_such as the U S occupation of Iraq in 2003 are likely to succeed On balance the book concludes discontented national movements will have to find ways to exist within current geopolitical boundaries
