The Inward Morning:

The Inward Morning : a Philosophical Exploration in Journal Form Henry Greenwood Bugbee, 1958 [The Inward Morning](#) Henry Greenwood Bugbee (Jr.), 1961 *The Inward Morning* Henry G. Bugbee, 1999 When first published in 1958 *The Inward Morning* was ahead of its time Boldly original it blended East and West nature and culture the personal and the universal The critical establishment confounded largely ignored the work Readers however embraced Bugbee's lyrical philosophy of wilderness Throughout the 1960s and 1970s this philosophical daybook enjoyed the status of an underground classic With this paperback reissue *The Inward Morning* will be brought to the attention of a new generation Henry Bugbee is increasingly recognized as the only truly American existentialist and an original philosopher of wilderness who is an inspiration to a growing number of contemporary philosophers

Wilderness and the Heart Edward F. Mooney, 1999 In this essential companion to the classic *The Inward Morning* sixteen distinguished contemporary philosophers celebrate Henry Bugbee's remarkable philosophy The essays trace his explorations of thought emotion and the need for a sense of place attuned to wilderness Representing a range of traditions the thinkers included here touch on an equally broad spectrum of inquiry including existential philosophy religion and environmental studies The essays progress from general introductions to considerations of more specific themes in Bugbee's philosophy to reflections on the man as teacher mentor and friend Provocative in their own right these contributions provide a commentary on *The Inward Morning* This volume thus becomes a valuable tool for the careful reader seeking to fully appreciate the vivid text that has inspired it while at the same time offering insight into contemporary issues in the philosophy of nature *The Inward Morning* Henry Greenwood Bugbee, 1976

Terrence Malick and the Examined Life Martin Woessner, 2024-03-25 Terrence Malick is one of American cinema's most celebrated filmmakers His films from *Badlands* 1973 and *Days of Heaven* 1978 to *The Thin Red Line* 1998 *The Tree of Life* 2011 and most recently *A Hidden Life* 2019 have been heralded for their artistry and lauded for their beauty but what really sets them apart is their ideas Terrence Malick and the *Examined Life* is the most comprehensive account to date of this unparalleled filmmaker's intellectual and artistic development Utilizing newly available archival sources to offer original interpretations of his canonical films Martin Woessner illuminates Malick's early education in philosophy at Harvard and Oxford as well as his cinematic apprenticeship at the American Film Institute to show how a young student searching for personal meaning became a famous director of Hollywood films Woessner's book presents a rich interdisciplinary exploration of the many texts thinkers and traditions that made this transformation possible from the novels of Hamlin Garland James Jones and Walker Percy to the philosophies of Stanley Cavell Martin Heidegger and Søren Kierkegaard to road movies Hollywood Westerns and the comedies of Jean Renoir Situating Malick's filmmaking within recent intellectual and cultural history Woessner highlights its lasting contributions to both American cinema and the life of the mind *Terrence Malick and the Examined Life* suggests it is time for philosophy to be viewed not merely as an academic

subject overseen by experts but also as a way of life open to each and every moviegoer

Wilderness in America Henry Bugbee, 2017-08-08 The philosophy of Henry Bugbee defies traditional academic categorization Though inspired by Heidegger and American Transcendentalism he was also admired by the famous analytic philosopher Willard van Orman Quine who described him as the ultimate exemplar of the examined life Bugbee's writings are remarkably different in form and register from anything written in twentieth century American Philosophy The beautifully written essays collected here show Bugbee's continuing commitment that anyone who throws his entire personality into his work must to some extent adopt an aesthetic attitude and medium Together the book reintroduces a major thinker of nature an environmental philosopher *avant la lettre* who has much to contribute to American and continental thought
