Online Science Learning: Best Practices and Technologies Downing, Kevin, Holtz, Jennifer, 2008-05-31 The continued growth in general studies and liberal arts and science programs online has led to a rise in the number of students whose science learning experiences are web based However little is known about what is actually going on in web based science courses at the level of the disciplines within liberal arts and sciences or the corresponding course design features Online Science Learning Best Practices and Technologies reviews trends and efforts in web based science instruction and evaluates contemporary philosophies and pedagogies of online science instruction This title on an emergent and vital area of education clearly demonstrates how to enrich the academic character and quality of web based science instruction

Facets of Virtual Environments Fritz Lehmann-Grube, Jan Sablatnig, 2010-02-14 In recent years the popularity of virtual worlds has increased significantly and they have consequently come under closer academic scrutiny Papers about virtual worlds are typically published at conferences or in journals that specialize in something tirely different related to some secondary aspect of the research Thus a paper d cussing legal aspects of virtual worlds may be published in a law journal while a psychologist s analysis of situation awareness may appear at a psychology conference The downside of this is that if you publish a virtual worlds paper at an unrelated conference in this manner you are likely to be one of only a handful of attendees working in the area You will not therefore achieve the most important goal of tending

conferences meeting and conversing with like minded colleagues from the academic community of your field of study Virtual worlds touch on many well established themes in other areas of science Researchers from all these fields will therefore be looking at this new interesting and growing field However to do effective research related to these complex constructs researchers need to take into account many of the other facets from other fields that impact virtual worlds Only by being familiar with and paying attention to all these different aspects can virtual worlds be properly understood **Project Management Approaches for Online Learning Design** Kurubacak, Gulsun, Yuzer, T. Volkan, 2013-01-31 Developments in online learning and its design are areas that continue to grow in order to enhance students learning environments and experiences However in the implementation of new technologies the importance of properly and fairly overseeing these courses is often undervalued **Project Management Approaches for Online Learning Design** boldly focuses on this unique area of virtual learning by adopting a theoretical point of view and discussing the planning organizing securing and managing of resources to bring about the successful completion of online learning goals and objectives This reference source brings together project management based approaches with an exclusive focus on each online learning design project
