

An aerial photograph of a desert landscape. A dirt road winds through the terrain, leading away from the viewer. A dark-colored truck is driving on the road, heading into the distance. The landscape is arid, with sparse vegetation and a mix of brown and tan earth tones. The sky is a pale, hazy blue.

Unbridgeable Divide:

From Tribal Division to Welcoming Inclusion Maxine Anderson, 2019-02-08 *From Tribal Division to Welcoming Inclusion* Psychoanalytic Perspectives provides a fascinating contribution to our understanding of the increasingly polarized and divisive nature of global politics. By describing the significant role of early mental mechanisms in interactions between the individual and society, the book offers a unique understanding of how our early mental life explains the social, cultural, and political positions we assume later. Splitting and projection are early defences meant to shield the growing mind from unbearable aspects of reality, but they hinder our capacity for open-minded thought and, in contributing to the dangerous atmosphere of us versus them, introduce tribal myths of an innocent group and external persecutors. The book illustrates these distortions of reality using a range of vignettes, notably the myth of white supremacy and the savage legacy of the Civil War in the United States. Gaining support from the work of Wilfred Bion, the book emphasises the need for integration of mind and the restoration of our capacity to face painful realities, including one's own violence and hatred. This psychoanalytic study provides a balm for turbulent times. It will be of great interest to researchers and interested readers in the broad field of psychoanalysis, as well as those in the fields of political science, cultural studies, and anthropology.

The Postmodern Significance of Max Weber's Legacy: Disenchanting Disenchantment B. Koshul, 2005-03-01 One of Max Weber's contemporaries described him as a child of the Enlightenment, born too late, whose work is a vitriolic attack on religion. Subsequent Weber scholarship has largely affirmed this valuation of Weber and characterized his scholarship as a manifestation of the very disenchantment that Weber describes. In *The Postmodern Significance of Max Weber's Legacy*, Basit Koshul challenges this idea by showing Weber to be a postmodern thinker far ahead of his time.

Fichte's 1804 Wissenschaftslehre Benjamin D. Crowe, Gabriel Gottlieb, 2024-02-01 *Fichte's 1804 Wissenschaftslehre* or *The Science of Knowing* consists of a series of lectures he delivered in his Berlin home to members of the city's political and cultural elite in 1804. The lectures mark a dramatic shift in the terminology and methodology he uses to explore the nature of knowledge and reality as presented in his philosophical system, the *Wissenschaftslehre*. Although not published during his lifetime, Fichte's 1804 lectures provide a systematic update to his philosophy of knowledge and being, which was only hinted at in print in popular presentations like *Characteristics of the Present Age* (1805) and *The Way Towards the Blessed Life* (1806). In fact, these lectures contain Fichte's first public articulation of his philosophical position in the wake of the professional disaster of the atheism controversy. This volume of new essays not only offers readers novel interpretations of the lectures but also introduces and clarifies key concepts, debates the relationship of the lectures to Fichte's Jena presentation of the *Wissenschaftslehre*, and examines issues related to his method and system of idealism.

Crossing the Stage Lesley Ferris, 1993 Brings together for the first time essays which explore cross-dressing in theatre, cabaret, opera, and dance. Essential reading for all those interested in performance and the representation of gender.
