Ultimate Terrorists:

The Ultimate Terrorists Jessica Stern,1999 As bad as they are why aren't terrorists worse With biological chemical and nuclear weapons at hand they easily could be Jessica Stern argues that the nuclear threat of the Cold War has been replaced by the more imminent threat of terrorist attacks with weapons of mass destruction Ultimate Terror Gar Wilson,1984 Ultimate Terror by Gar Wilson released on Nov 24 1983 is available now for purchase The Enemy of My Enemy George Michael,2006 In the violent world of radical extremists the enemy of my enemy is my friend This study reveals how that precept plays out in the unexpected bonding between militant Islam and the extreme right in America and Europe It provides an insightful and sane look at the possibilities for collaboration between these groups *The New Face of Terrorism* Nadine Gurr,Benjamin Cole,2000 This revised edition is a comprehensive account of the technological and political possibilities and dangers presented by weapons of mass destruction in the wake of September 11th 2001 The technical and organizational sophistication of the attacks on September 11th heralds a new era in the age old war against terrorism After these attacks attention became focused on the activities and capacities of Islamic extremist groups such as Osama bin Laden's al Qaeda organization but the reality is that terrorist threats could come from almost any quarter **Annual Editions: Violence and Terrorism** Thomas J. Houghton,2004 This dissertation identifies policies and organizational options at the local level that could save lives and reduce injury likely to occur from an act of chemical terrorism It seeks out low cost ways to improve the current performance level in responding to chemical

terrorism using Los Angeles as a case study The dissertation attempts to determine the level of risk of chemical terrorism in Los Angeles and identify the anticipated magnitude for which emergency responders and decisionmakers should plan Then it considers current capability and performance levels in chemical terrorism response and determines a performance goal for response to the planning magnitude Through modeling and simulation the dissertation presents low cost options in equipment training organization and doctrine that could improve the response to a chemical terrorist event Finally the dissertation examines these options in terms of budget considerations in Los Angeles The dissertation s findings point to decentralizing counter chemical terrorism equipment throughout the Los Angeles metropolitan area reformulating those doctrinal policies that may inadvertently slow the mitigation process establishing low cost training methods to enhance the specialized knowledge needed to respond effectively putting polices in place to accelerate the decontamination process and focusing on an all hazards approach to preparedness

The Theater of Terror Gabriel Weimann, Conrad Winn, 1994

The Dynamic Terrorist Threat Kim Cragin, Sara A. Daly, 2004 As the war on terrorism wages on our nation s policymakers will continue to face the challenge of assessing threats that various terrorist groups pose to the U S homeland and our interests abroad As part of the RAND Corporation s yearlong Thinking Strategically About Combating Terrorism project the authors of this report develop a way to assess and analyze the danger posed by various terrorist organizations around the world The very nature of terrorism creates a difficulty in predicting new and emerging threats however by establishing these types of parameters the report creates a fresh foundation of threat analysis on which future counterterrorism strategy may build

Treating Weapons Proliferation David Santoro, 2010-02-15 Treating Weapons Proliferation is a chilling exploration of the dynamics of weapons proliferation and nonproliferation Through an analogy with the disease of cancer the book walks the reader through the history of the phenomenon its growing complexities and changing dimensions its causes and consequences and the various policy responses currently available to address it Taking stock of the nature and challenges of such responses the book shows that there is no all encompassing cure for weapons proliferation at the present time only treatments of relative and contextual effectiveness Simply put weapons proliferation like cancer has no single cure but it is a condition that can often be treated sometimes successfully

The World After September 11 Moonis Ahmar, 2003

Terrorism and Weapons of Mass Destruction Bruce Hoffman, 1999 Although the conventional wisdom previously held that terrorists were more interested in publicity than in killing recent terrorist attacks such as the 1995 nerve gas attack in a Tokyo subway and the bombing of a federal government office building in Oklahoma City have either crossed into the domain of use of weapons of mass destruction WMD or involved the deliberate infliction of large numbers of casualties This paper examines three reasons that may account for terrorism s increasing lethality 1 the proliferation of religious terrorism in which violence assumes a transcendental dimension 2 the rise of amateur terrorists loosely organized groups of individuals with particular grievances who are able to gain WMD expertise from publicly available sources and 3 the growing

sophistication and competence of professional terrorist organizations A confluence of new motives opportunities and capabilities could impel any of these groups to employ a chemical biological or nuclear weapon or radioactive device Given even the possibility of future terrorist use of such weapons no nation can afford to consider terrorism to be among its least serious or complex of security issues
