Fitzgerald,1976 Peru Post-1968 Carol Wise,1990 **Reinventing the State** Carol Wise,2009-12-14 The political economic history of Latin America in the post World War II era has largely been one of underachievement and opportunities lost This all changed with the wave of market reforms that were implemented in the 1990s However the precise role of these reforms as an agent of change is still hotly debated This in depth analysis of the Peruvian case argues for an explanation that treats institutional innovation and state reconstruction as necessary conditions for the apparent success of the market in Latin America Exploring how state intervention has been both the cause of Latin America s economic downfall in the 1980s and the solution to its recovery Reinventing the State analyzes three main phases of state intervention the developmentalism that lasted until 1982 the state in retreat of the 1980s and the streamlined state of the 1990s Through a comprehensive examination of the Peruvian experience the book explains the country s impressive turnaround from the standpoint of institutional modernization and internal state reform Written for a broad academic audience the public policy community and the private sector this book is also meant as a quick primer for any journalist consultant or private sector analyst in need of an overview of the region s market reform effort and how it has played out in Peru Carol Wise is Associate Professor School of International Relations University of Southern California Economic Development of Peru Robert Andrew Gorman,1976 Abstract **A Select Bibliography On Economic Development** John P. Powelson,2019-05-20 This bibliography of more than 2 000 titles contains both books and journal articles primarily those published since 1970 Most of the entries are annotated The material is classified according to forty eight categories and there is also a list of relevant titles for each major country in Africa Asia and Latin America **An An[n]otated Bibliography of Rural Development, Urbanization, and Levels of Living in Peru** Eric Graber,1979 *Searching for a Better Society* John Sheahan,2010-11-01 As in most of the rest of Latin America Peruvian economic strategy has gone in something of a circle from long established orientation toward an open economy with minimal state intervention to a period of state led development then back again to what looks like the starting point In the 1960s the Peruvian people had their first real chance to make a democratic choice between continuation of the country s open economy orientation or change they chose change Using this as his starting point Sheahan explains how their choice was not provoked by any economic crisis but by other major influences The majority of Peruvians he shows were seeking objectives more fundamental than economic growth They were with conflicting visions but with many good reasons searching for a better society While positive accomplishments have been important enough went wrong to lead Peru back to a more market determined economic system in 1990 Sheahan addresses the consequences of this return to the earlier economic strategy what might be done to shape the process of development in Peru in Latin America more generally toward less unfair societies Searching for a Better Society is
