My 90 Days Saga Pranati Mohanty, 2021-04-21 My 90 Days Saga was written by a first time author at a very interesting time She had been contemplating to leave her corporate job for quite some time As she crawled along in her life her stresses became a nuisance When she finally decided to call it a day she was served a usual three months notice period This was the time when she decided to write her life story during a particular phase of time Amid uncertainties she bought a sick boutique unit with her savings knowing fully well that financial cushion was paltry And then Covid pandemic struck India disrupting human lives in all forms She was stuck at home doing her office jobs contemplating a business strategy on how to make a sick unit profitable She did not have any experience in business but the domain in which she entered was a childhood fascination creative designing which in the hindsight actually helped her To top it all she managed a heavy course work for a new management qualification from Xavier Institute which she successfully completed Being a single woman she did all these during a pandemic with so much of uncertainties around She attributed her indomitable spirit to her parents and unfathomable faith in the Almighty Her transformation process from a normal small town girl from a remote corner of India to a successful entrepreneur symbolized her increasing self belief

Impossible Jobs in Public Management Erwin C. Hargrove, John C. Glidewell, 1990 If you think your job is hopelessly difficult you may be right Particularly if your job is public administration Those who study or practice public management know full well the difficulties faced by administrators of complex bureaucratic systems What they don't know is why some jobs in the public sector are harder than others and how good managers cope with those jobs Drawing on leadership theory and social psychology Erwin Hargrove and John Glidewell provide the first systematic analysis of the factors that determine the inherent difficulty of public management jobs and of the coping strategies employed by successful managers To test their argument Hargrove and Glidewell focus on those jobs fraught with extreme difficulties impossible jobs What differentiates impossible from possible jobs are 1 the publicly perceived legitimacy of the commissioner's clientele 2 the intensity of the conflict among the agency's constituencies 3 the public's confidence in the authority of the commissioner's profession and 4 the strength of the agency's myth or long term idealistic goal Hargrove and Glidewell flesh out their analysis with six case studies that focus on the roles played by leaders

of specific agencies Each essay summarizes the institutional strengths and weaknesses specifies what makes the job impossible and then compares the skills and strategies that incumbents have employed in coping with such jobs Readers will come away with a thorough understanding of the conflicting social psychological and political forces that act on commissioners in impossible jobs *The New Politics of State Health Policy* Robert B.
