## **The Harbor Light:**

Where the Harbor Lights Glow John Berry, 2026-03-10 In Harbor's Edge the lights are more than navigation They're a promise When coastal engineer Claire Bennett arrives to evaluate the aging harbor infrastructure she expects another temporary assignment measure the docks write the report and move on to the next town But Harbor's Edge isn't like the other places she's studied The harbor runs on tradition quiet dedication and a system of lights that has guided fishermen home for generations At the center of it all is Daniel Mercer the harbor's electrician and unofficial keeper of the lights He knows every dock every cable every lantern along the marina and he knows exactly what can happen when outsiders decide a small harbor needs to change At first Daniel sees Claire as a threat to the place he's spent his life protecting But as storms roll in and the lighthouse beam falters Claire begins to see what the harbor truly represents not just infrastructure but a community held together by the quiet rhythm of the sea When Claire's final report could determine the harbor's future she must decide whether to follow expectations or protect something far more important Because in Harbor's Edge the lights don't just guide boats home sometimes they guide people there too
