women s football book on Latin America centring the perspectives of players brings rare interview material that cuts through  
the clichés to uncover the lived reality of women footballers It includes the first large scale survey of South American women  
footballers views into dialogue with institutional and media perspectives The early chapters consider the backdrop Latin  
American women footballers operate in a media and institutional panorama that privileges a heteronormative athletic  
femininity whilst ensuring women s football is never portrayed as anything other than an inferior version of the hegemonic  
men s game Following this drawing on nine months of ethnographic fieldwork in which 33 semi structured interviews were  
carried out with players and institutional figures this pioneering book foregrounds the lived reality of women s football in  
three strategic locations Firstly three months were spent in the Amazon region of Brazil where Esporte Clube Iranduba  
provides a fascinating alternative model for the growth of women s football This is contrasted with Santos FC where women s  
football tends to be constantly overshadowed by the presence of banal patriarchy and finally with another fleeting glimpse of  
how another model is possible at Atlético Huila of Colombia the surprise winner of the women s Copa Libertadores in 2018
