Names Fashioned by Gender Thenjiwe Meyiwa, Madoda Cekiso, 2023-12-01 Names are very powerful and significant especially in the African context Across societies there is a universal albeit taken for granted fact that all human beings have names Names Fashioned by Gender is a collection of essays on onomastics a linguistics field of study focusing on the origin form history and use of proper names The study of naming potentially provides significant evidence about the role of gender

in the assimilation and or enculturation processes as personal names evoke insight into the construction of gender and personhood in African societies The book takes intellectual course from the idea that how names are viewed and used is heavily context dependent and gendered It demonstrates that personal names are narratives derived from different contexts within various cultures and circumstances subsequently imposing different identities on name bearers Through persuasive essays this book elucidates that naming is an activity that needs to be conducted cautiously because names tend to determine the destiny and character of an individual Print editions not for sale in Sub Saharan Africa *Announcement* Washington State University,1930 *Official Gazette of the United States Patent Office* United States.
