The image shows an open, spiral-bound planner with two pages visible. Each page is titled "Time Blocking" and features a grid for scheduling. The grid is divided into two main sections: a top section for "TODAY" and a bottom section for "TOMORROW". Each section has a header row for "DATE" and "TIME" and a grid of cells for scheduling. Below the grid, there is a section for "TODAY'S TO DO LIST" and "TOMORROW'S TO DO LIST". The planner is bound in the center with a silver spiral binding. The pages are white with blue and black text and lines. The background is a light purple gradient.

Chien, 1990 Abstract This paper describes a non linear planner that uses incremental inference to deal with complexity of planning using a representation with conditional effects This planner constructs initial plans using limited inference to reason about conditional effects of operators While this significantly reduces the computational expense of plan construction it introduces the possibility that the initial plan will make incorrect predictions Because the planner uses a sound method for plan construction sound except for the limited consideration of effects when a plan fails it must be due to an unconsidered conditional operator effect **Time** Briton Hadden, Henry R.
