Cecilia Konchar Farr,2015-01-01 A Wizard of Their Age began when the students in Cecilia Konchar Farr s Six Degrees of Harry Potter course at St Catherine University kept finding errors in the available scholarship These students had been reading Harry Potter for their entire literate lives and they demanded more attention to the details they found significant We can do better than this they said Konchar Farr two undergraduate teaching assistants and five student editors decided to test that hypothesis After issuing a call for contributions they selected fifteen thoughtful academic essays by students from across the country These essays examine the Harry Potter books from a variety of perspectives including literary historical cultural gender mythological psychological theological and genetic there is even a nursing care plan for Tom Riddle Interspersed among the essays are brief vignettes entitled My Harry Potter Story where students write about their personal encounters with the novels Although a quick Internet search yields a dazzling number of books about Harry Potter few are as deeply invested or insightful as A Wizard of Their Age Written and edited by and for members of the Harry Potter generation these essays demonstrate this generation s passionate engagement with the Harry Potter phenomenon and provide numerous critical insights into the individual novels and the series as a whole [The Harry Potter Companion](#) Acascias

rumored that the maestro Beethoven was a womanizer and while conducting orchestras he also conducted many affairs with his young female students In those times although mostly behind their backs some men and even some women were referred to as libertines Of course any man as emotional as Beethoven had to be romantically exotic but I didnt consider him a libertine it was just that young women threw themselves at him and he used the opportunities The saddest part was this remarkable man was almost deaf in later years he became almost completely and totally deaf Yet this man was such a genius just by reading the written notes he could hear the music inside his head Often he laid his hands on the piano as I played At times when I played particularly when we were alone after hed closed the piano thus containing the sound hed than lay his head down on the piano by doing so with his temple held tightly on the lid it enabled him to hear it fully the way it was meant to be heard This was done only prudently and only witnessed by certain people as he was embarrassed and at first not wanting to admit being deaf No matter how much relief Id get by forgetting the music I never would forget it on purpose That music is a part of me more so than my arms and limbs even the music is more part of me than my perceived beauty or my Immortality
