Story, World and Character in the Late Íslendingasögur Rebecca Merkelbach, 2024 Argues for new models of reading the complexity and subversiveness of fourteen post classical sagas The late Sagas of Icelanders thought to be written in the fourteenth and fifteenth centuries have hitherto received little scholarly attention Previous generations of critics have unfavourably compared them to classical slendingas gur and fornaldars gur leading modern audiences to project their expectations onto narratives that do not adhere to simple taxonomies and preconceived notions of genre As rogues within the canon they challenge the established notions of what makes an slendingasaga Based on a critical appraisal of conceptualisations of canon and genre in saga literature this book offers a new reading of the relationship between the individual paranormal and social dimensions that form the foundation of these sagas It draws on a multidisciplinary approach informed by perspectives as diverse as possible worlds theory gender studies and social history The post classical sagas are not only read anew and integrated into both their generic and socio historical context they are met on their own terms allowing their fascinating narratives to speak for themselves

Patricia A. McKillip and the Art of Fantasy

World-Building Audrey Isabel Taylor,2017-08-11 From wondrous fairy lands to nightmarish hellscape the elements that make fantasy worlds come alive also invite their exploration This first book length study of critically acclaimed novelist Patricia A McKillip s lyrical other worlds analyzes her characters environments and legends and their interplay with genre expectations The author gives long overdue critical attention to McKillip s work and demonstrates how a broader understanding of world building enables a deeper appreciation of her fantasies The Nine Worlds Mary Elizabeth Litchfield,1890 *In the company of wolves* Sam George,Bill Hughes,2020-02-05 In the company of wolves presents further research from the Open Graves Open Minds Project It connects together innovative research from a variety of perspectives on the cultural significance of wolves wild children and werewolves as portrayed in different media and genres We begin with the wolf itself as it has been interpreted as a cultural symbol and how it figures in contemporary debates about wilderness and nature Alongside this we consider eighteenth century debates about wild children often thought to have been raised by wolves and other animals and their role in key questions about the origins of language and society The collection continues with essays on werewolves and other shapeshifters as depicted in folk tales literature film and TV concluding with the transition from animal to human in contemporary art poetry and fashion **A Transmedia Archaeology of Film**

Promotion Online Kim Walden,2025-10-27 At a time when more films are released annually than there are days in the year films must compete for audience attention As a result promotional budgets have risen exponentially with online becoming the fastest growing sector Film websites don t just promote films they chronicle backstories map storyworlds introduce characters and provide spaces for audiences to congregate Yet as a hybrid of promotion storytelling and community hub these sites are ephemeral and when the promotional work is done they are often locked taken down and disappear without trace This book considers this emerging form Where have film websites been collected and archived What forms do these websites take And how do audiences engage with film websites Drawing on media archaeological methods as well as developing new strategies to investigate these intriguing media objects this book suggests that film websites are worthy of consideration as cultural artefacts in their own right In *Beyond the Screen* 2014 Sarah Atkinson describes film sites as new filmic objects and an unparalleled cultural form This book makes these new filmic objects its focus and sets out to discover more about them The Producers Guild of America s definition of transmedia practices extends to narrative commercial and marketing roll outs so one way these new filmic objects can be understood is as a kind of transmedia marketing However while there is no shortage of how to manuals on transmedia storytelling and transmedia marketing these practices remain under theorised in the literature So this is what this book sets out to do **The Official Roster of Ohio Soldiers, Sailors and Marines in the World War, 1917-18** Ohio.
