## **The Body Silent:**

Body Silent Robert F Murphy, 2001-06-05 The most powerful book of its kind I've ever read Extraordinary powers of observation generalization and depth Oliver Sacks author of *The Man Who Mistook His Wife For a Hat* Winner of the Columbia University Lionel Trilling Award Robert Murphy was in the prime of his career as an anthropologist when he felt the first symptom of a malady that would ultimately take him on an odyssey stranger than any field trip to the Amazon a tumor of the spinal cord that progressed slowly and irreversibly into quadriplegia In this gripping account Murphy explores society's fears myths and misunderstandings about disability and the damage they inflict He reports how paralysis like all disabilities assaults people's identity social standing and ties with others while at the same time making the love of life burn even more fiercely

The Body Silent Robert Francis Murphy, 1990 *Body Silent* Robert F Murphy, 2001-06-05 Robert Murphy was a professor of anthropology at Columbia before he developed a spinal tumour that progressed into quadriplegia Here he explores society's fears myths and misunderstanding about disability and the effect they have on the disabled person's identity and social standing

The Body Mike Featherstone, Mike Hepworth, Bryan S Turner, 1991-01-10 This challenging volume reasserts the centrality of the body within social theory as a means to understanding the complex interrelations between nature culture and society At a theoretical level the volume explores the origins of a social theory of the body in sources ranging from the work of Nietzsche to contemporary feminist theory The importance of a theoretical understanding of the body to social and cultural analysis of contemporary societies is demonstrated through specific case studies These range from the expression of the emotions romantic love dietary practice consumer culture fitness and beauty to media images of women and sexuality

*Remaking the Body* Wendy Seymour, 2012-11-12 In *Remaking the Body* Wendy Seymour interviews men and women who have suffered profound bodily paralysis and explores how they deal with their appearance relationships sexuality incontinence and sport She finds that even major impairment hasn't annihilated these people's experience of an embodied self She shows that the process of self reconstruction is interwoven with social expectations and argues that the experience of disability highlights the continuous work involved in embodiment for everyone *Remaking the Body* is a major contribution to the field of the sociology of the body and essential reading for rehabilitation professionals and students

**A Companion to the Anthropology of the Body and Embodiment** Frances E. Mascia-Lees, 2011-03-29 *A Companion to the Anthropology of the Body and Embodiment* offers original essays that examine historical and contemporary approaches to conceptualizations of the body In this ground breaking work on the body and embodiment the latest scholarship from anthropology and related social science fields is presented providing new insights on body politics and the experience of the body Original chapters cover historical and contemporary approaches and highlight new research frameworks Reflects the increasing importance of embodiment and its ethnographic contexts within anthropology Highlights the increasing emphasis on examining the production of scientific technological and medical expertise in studying bodies and
