Commanding The Realms & Elements Ruth Owusu,2018-05-04 People all over the world are different in so many ways but when it comes to the area of life they struggle with most virtually everyone gives the same answer relationships As humans we were made to connect with others which is why relationships are so important to us When they re working they can be the source of our greatest joy But when relationships fail it can lead to hopelessness isolation and despair What many people don t realize is that behind every relationship is an invisible spiritual dimension and sometimes the relational challenges we face arise not from the people involved but from unseen forces seeking to sabotage discourage and destroy intimacy It s one thing fighting someone you can see but it s a completely different story when your opponent hides behind the scenes and attacks you when you least expect it We were born fighting to protect our territory We fight to stay alive and to thrive daily which is why we are tired and easily stressed because we have been fighting from day one What can you do when you re unable to take it anymore Get behind the scenes pull your spiritual opponent out of the darkness and into the light and then use the right weapon to destroy him Inspired by Sun Tzu s The Art of War this book explains how to live and grow in the supernatural realm by accessing the keys revealed in Scripture It outlines a proven strategy to restore your life and relationships and make them everything God created them to be

**Taleworlds and Storyrealms** K. Young,2012-12-06 Beginning is the hardest ITPment not because openers are all that scarce but because you re blowing into cracking a universe l Maurice Natanson q enings are already directed toward closings The first question in presenting a body of work is where to cut in This is an especially difficult question since the cut in provides a perspective on what follows A cut is an angle of entry Wherever I enter from there a realm unfolds itself In that sense my angle of entry is my point of view A realm cut into has an orientation It evidences a hierarchy of importance relevance accessibility value or logic Its content is no longer neutral and equivalent From my

perspective the realm is not only differentiated in substance but differential in significance There is a relation between angles and attitudes Where I look from is tied up with how I see The first cut opens out into a frame of reference What counts as lines of evidence in that realm materialize along with its background expectancies its assumptions concentrations and confusions its cosmology quirks and enchantments Hence once I am committed to a perspective I am implicated in a methodology one possessed of puzzles of a certain shape Ipping toward solutions within its orthodoxy Openings are directed toward closings Another cut would open onto another realm The realm of events I cut into is a Taleworld inhabited by characters acting in their own space and time
