## To Care Always:

Caring Democracy Joan C. Tronto, 2013-04-12 A rethinking of American democracy that puts caring responsibilities at the center Americans now face a caring deficit there are simply too many demands on people's time for us to care adequately for our children elderly people and ourselves At the same time political involvement in the United States is at an all time low and although political life should help us to care better people see caring as unsupported by public life and deem the concerns of politics as remote from their lives Caring Democracy argues that we need to rethink American democracy as well as our fundamental values and commitments from a caring perspective What it means to be a citizen is to be someone who takes up the challenge how should we best allocate care responsibilities in society Joan Tronto argues that we need to look again at how gender race class and market forces misallocate caring responsibilities and think about freedom and equality from the standpoint of making caring more just The idea that production and economic life are the most important political and human concerns ignores the reality that caring for ourselves and others should be the highest value that shapes how we view the economy politics and institutions such as schools and the family Care is at the center of our human lives but Tronto argues it is currently too far removed from the concerns of politics Caring Democracy traces the reasons for this disconnection and argues for the need to make care not economics the central concern of democratic political life A Promise in Pieces Emily

T. Wierenga, 2014-04-15 After the end of World War II Clara Kirkpatrick returns from the Women's Army Corp to deliver a dying soldier's last wishes convey his love to his young widow Mattie with apologies for the missed life they had planned to share Struggling with her own post war trauma Clara thinks she's not prepared to handle the grief of this broken family Yet upon meeting Mattie and receiving a baby quilt that will never cuddle the soldier's baby Clara vows to honor the sacrifices that family made Now a labor and delivery nurse in her rural hometown Clara wraps each new babe in the gifted quilt and later stitches the child's name into the cloth As each new child is welcomed by the quilt Clara begins to wonder whatever happened to Mattie and if her own life would ever experience the love of a newborn Little does she know that she will have the opportunity to re gift the special quilt years later and carrying even greater significance than when it was first bestowed

The Rise of the Therapeutic Museum Janet Kraynak, 2025-09-30 This book considers how and why respite rooms emotional support brochures well being guides psychological consultants and care days are becoming common features in the museum of art Kraynak poses and answers this question arguing that under its rightful ambition to decolonize i.e. to rectify past and present inequalities the museum of the Global North is gradually replacing a commitment to knowledge teaching and learning with a focus upon care healing and well being the therapeutic While this transformation might appear on the surface benign culturally familiar and politically desirable the author counters these presumptions probing the history and implications of the therapeutic museum Here curatorial attention shifts away from the art on view and onto the spectator whom the museum imagines as a precarious psychological subject and primary source of meaning External forces new forms

of knowledge encounters with difficulty even an engagement with art are treated as a potential threat As a result the therapeutic museum not only encourages the beholder to turn inward but in so doing deflects attention from or scrutiny of its own practices and systems that perpetuate inequality Among these are the ongoing legacies colonialism s epistemic violence which elevated the knowledge and aesthetic traditions of the Global North while suppressing those of the Global South In contrast the book proposes a pluriversal versus universal museum that maintains the political necessity of knowledge and views pedagogy as a path to emancipation Emphasizing epistemic justice and the moral right to learn during a time when such freedoms are increasingly under attack the book makes a powerful case for questioning rather than romanticizing the therapeutic museum which it ultimately reveals to reinforce rather than challenge dominant power This is an important intervention that is essential reading for researchers and scholars in Art History Visual Studies Museum Studies and Cultural Studies

*The Medical Act: Conscientious Practice in a World of Dissention and Disagreement* Bryan Pilkington, 2025-10-11 This book takes a step back from the usual debates over conscience in medicine and asks whether the conscientious practice of individual healthcare practitioners is coherent and acceptable on its own This book argues in the affirmative and describes how we move forward in light of the deep moral and professional disagreement that exists The book explains why the current framing within the debate is mistaken and offers an alternative framing In so doing the author discusses disagreement within healthcare professions the distinction between conscience protectors and conscience dissenters and how to properly understand the role of religious and personal philosophical reasons in practicing conscientiously The book articulates the key confusion in much of the current debate that disagreement over conscience in medicine is due to religious or personal philosophical beliefs and rejects it The book then positively argues that differing accounts of moral responsibility are at the root of this disagreement opening up new avenues for dialogue and potentially fruitful collaborations The book concludes

with a much needed and basic discussion of what is going on when practical judgements are made in healthcare the medical act This book is of great interest to both advanced undergraduate and graduate students in philosophy bioethics and medicine as well as researchers physicians and health professionals *Engineering-contracting* ,1907 **Cases on Models and Methods for STEAM Education** Bazler, Judith Ann, Van Sickle, Meta Lee, 2019-09-27 STEAM education can be described in two ways One model emphasizes the arts and is not as concerned about the accuracy of the STEM fields In the second model STEM content is the prevailing force with a focus on accuracy and the arts are used in limited and secondary resources for the teaching of the content However in order to promote creative thinking allow for higher student engagement and offer a more well rounded education a STEAM model where science technology engineering arts and mathematics are equal contributors to the process of learning is needed Cases on Models and Methods for STEAM Education is an important scholarly resource that provides inclusive models and case studies highlighting best techniques and practices for implementing STEAM models in teaching and assists teachers as they learn to use such methods through the inclusion of practical activities for use in the classroom Highlighting a wide range of topics such as science education fine arts and teaching models this book is essential for educators administrators curriculum developers instructional designers policymakers academicians researchers and students **The Surgical Clinics of North America** ,1921 Torrey ,1908 *Westward Ho!* Charles Kingsley, 1878 *A Text-book of the Science and Art of Obstetrics* Henry Jacques Garrigues, 1902 Quarterly Review of the Evangelical Lutheran Church ,1885 **The American Mathematical Monthly** ,1929 Includes section Recent publications **Plato, with an English Translation: Laws, Bks.
