To the Mountains Abdullah Anas, 2019-03-01 A fascinating account of the early years of the anti Soviet insurgency in Afghanistan and its role in rallying Islamists from across the globe *Ordinary Sudan, 1504-2019* Elena Vezzadini, Iris Seri-Hersch, Lucie Revilla, Anael Poussier, Mahassin Abdul Jalil, 2023-07-24 This book starts from the premise that the study of exceptionally normal women and men as conceived by microhistory has radical implications for understanding history and politics and applies this notion to Sudan Against a historiography dominated by elite actors and international agents it examines both how ordinary people have brought about the most important political shifts in the country's history including the recent revolution in 2019 and how they have played a role in maintaining authoritarian regimes It also explores how men and women have led their daily lives through a web of ordinary worries desires and passions The book includes contributions by historians anthropologists and political scientists who often have a dual commitment to Middle Eastern and African studies While focusing on the complexity and nuances of Sudanese local lives in both the past and the present it also connects Sudan and South Sudan with broader regional global and imperial trends The book is divided into two volumes and six parts ordered thematically The first part tackles the entanglement between archives social history and power The second focuses on women's agency in history and politics from the Funj era to the recent 2018-2019 revolution Part 3 includes contributions on the history and global connections of the Sudanese armed forces In the second volume part 4 intersects the themes of urban life leisure and colonial attitudes with queerness In part 5 labour identities practices and institutions are discussed both in urban milieus and against the background of war and expropriation in rural areas Finally part 6 studies the construction of social consent under various self-styled Islamic regimes as well as the emergence of alternative imaginaries

Matthew Hedges,2022-04-01 Though the Arab Spring has reverberated through the Middle East largely leaving a path of
destruction the relative calm in the United Arab Emirates has offered a regional roadmap for stability Domestic changes
since 2000 have significantly altered the country s dynamics firmly cementing power within Abu Dhabi While Khalifa bin
Zayed succeeded his father as emir of Abu Dhabi and UAE president in 2004 the Emirates evolution has largely been
accredited to Abu Dhabi s crown prince Mohammed bin Zayed His reign has been characterized by the rise of the security
apparatus and a micromanaged approach to governance Mohammed bin Zayed s strategy of fortification has focused on pre
empting threats from the UAE s native population rather than from expatriates or foreign actors As a result he has
consolidated power distributing its administration among his tribal and kinship allies In essence Mohammed bin Zayed has
driven modernization in order to strengthen his grasp on power This book explores Mohammed bin Zayed s regime security
strategy illustrating the network of alliances that seek to support his reign and that of his family In an ever turbulent region
the UAE remains critical to understanding the evolution of Middle Eastern authoritarian control Fourth Estate ,1904
