Paul A. Blaum

War Lords:

Warlord Survival Romain Malejacq, 2020-01-15 How do warlords survive and even thrive in contexts that are explicitly set up to undermine them How do they rise after each fall Warlord Survival answers these questions Drawing on hundreds of in depth interviews in Afghanistan between 2007 and 2018 with ministers governors a former vice president warlords and their entourages opposition leaders diplomats NGO workers and local journalists and researchers Romain Malejacq provides a full investigation of how warlords adapt and explains why weak states like Afghanistan allow it to happen Malejacq follows the careers of four warlords in Herat Sheberghan and Panjshir Ismail Khan Abdul Rashid Dostum Ahmad Shah Massoud and Mohammad Qasim Fahim He shows how they have successfully negotiated complicated political environments to survive ever since the beginning of the Soviet Afghan war The picture he paints in Warlord Survival is one of astute political entrepreneurs with a proven ability to organize violence Warlords exert authority through a process in which they combine instrumentalize and convert different forms of power to prevent the emergence of a strong centralized state But as Malejacq shows the personal relationships and networks fundamental to the authority of Ismail Khan Dostum Massoud and Fahim are not necessarily contrary to bureaucratic state authority In fact these four warlords and others like them offer durable and flexible forms of power in unstable violent countries

The Days of the Warlords Paul A. Blau, 1994-10-25 This book while it deals primarily with civil conflicts between the Byzantine Emperor Basil II and the warrior aristocrats Bardas Phocas and Bardas Sclerus casts considerate light on Christian Muslim relations in the Middle East during the century immediately preceding the crusades These interactions sometimes hostile sometimes surprisingly intimate occurred during that one period between the mid tenth and mid eleventh century when Shi ite Islam not Sunni Islam dominated the Muslim world The ethnic and secretarian fragmentation that marks present day Islam was already well in place at the end of the tenth century

The Chinese Warlord System: 1916 to 1928 Hsi-sheng Chi, 1969 The study describes the military aspects of the political contest for control of the central government in the context of the disorganized sociopolitical structure of China from 1916 to 1928 It is a useful corrective to the popular image of the Chinese warlords during this period of their greatest activity The study points out that the warlords were not merely military men exploiting China s condition for private gain in their various domains nor were they seeking to destroy or replace the central government in the classic pattern under which many Chinese dynasties have historically emerged

Monthly Supplement , 1927 **Crafting Peace** Sasha Lezhnev, 2005-01-01 Crafting Peace analyzes warlords in depth including their organizational structure and the context in which they operate ultimately exploring the effectiveness of various short and long term strategies to deal with warlords Instead of focusing strictly on economic causes the focus here is on the extremely frail political security environment that allows warlords to rise up seize power and profit in the midst of chaos This deeper political context under analyzed in other texts in terms of its effect on warlordism is crucial to understanding both why warlords arise and how they should be dealt

with This book suggests a two pronged strategic approach to help craft peace unseating certain intransigent warlords through immediate coercive measures and taking away the anarchic environment in which these actors thrive by implementing several policies aimed at rebuilding law and order over the long term Sasha Lezhnev discusses this approach by looking at real world cases in Sierra Leone and Tajikistan Crafting Peace presents a new way of looking at eliminating warlords and restoring peace in war torn states that will prove essential to both scholars and practitioners in international relations and political science

Late Roman Warlords Penny MacGeorge,2002-12-05 Late Roman Warlords reconstructs the careers of some of the men who shaped and were shaped by the last quarter century of the Western Empire There is a need for a new investigation of these warlords based on primary sources and including recent historical debates and theories The difficult sources for this period have been analysed and translated as necessary to produce a chronological account and relevant archaeological and numismatic evidence has been utilised An overview of earlier warlords including Aetius is followed by three studies of individual warlords and the regions they dominated The first covers Dalmatia and Marcellinus its ruler during the 450s and 460s A major theme is the question of Marcellinus western or eastern affiliations using an often ignored Greek source Penny MacGeorge suggests a new interpretation The second part is concerned with the Gallic general Aegidius and his son Syagrius who ruled in northern Gaul probably from Soissons This extends to AD 486 well after the fall of the Western Empire The problem of the existence or non existence of a kingdom of Soissons is discussed introducing evidence from the Merovingian period and a solution put forward This section also looks at how the political situation in northern Gaul might throw light on contemporary post Roman Britain The third study is of the barbarian patrician Ricimer defender of Italy and his successors the Burgundian prince Gundobad and Orestes a former employee of Attila down to the coup of 476 by which Odovacer became the first barbarian king of Italy This includes discussion of the character and motivation of Ricimer particularly in relation to the emperors he promoted and destroyed and of how historians assessments of him have changed over time
