War Or Peace:

The Ethics of War and Peace Nigel Dower, 2009-07-07 This book presents an introduction to the diverse and wide ranging ethical aspects of war and peace In a fair minded and engaging analysis Nigel Dower introduces the different ethical theories in traditional and contemporary debates realism just war theory and pacifism and subjects each to detailed critical scrutiny The book uses a wide range of examples from across the world including discussions of nuclear weapons new wars terrorism humanitarian intervention and human security Written as a textbook for those who have no prior knowledge of philosophical ethics The Ethics of War and Peace is designed to help students understand how to engage ethically with the world At the end of each chapter there is a helpful set of questions for individual reflection or group discussion Book Jacket **War and peace** graf Leo Tolstoy, 1899 **The Rights of War and Peace** Richard Tuck, 1999-11-11 The Rights of War and Peace is the first fully historical account of the formative period of modern theories of international law It sets the scene with an extensive history of the theory of international relations from antiquity down to the seventeenth century Professor Tuck then examines the arguments over the moral basis for war and international aggression and links the debates to the writings of the great political theorists such as Hobbes Locke Rousseau and Kant This is not only an account of international law as Professor Tuck shows ideas about inter state relations were central to the formation of modern liberal political theory for the best example of the kind of agent which liberalism presupposes was provided by the modern state As a result the book illuminates the presuppositions behind much current political theory and puts into a new perspective the connection between liberalism and imperialism *War, Peace and World Orders in European History* Anja V. Hartmann, Beatrice Heuser, 2002-11 This book explores a new way for students of International Relations to look at war peace and world orders throughout European history The contributors argue that the predominant realist paradigm that focuses on states and their self interest is not applicable to the largest period of European history because states either did not exist or were only in the making Instead they argue we have to look through the eyes of historical entities to see how they understood the world in which they lived The authors use a wide range of case studies focusing on subjects as diverse as the ancient Greek concept of honour and persecution under Communist regimes during the Cold War to explore the ways in which people in different societies at different times perceived and felt about war and peace in the world around them War, Peace, and Reconciliation Theodore R. Weber, 2015-11-11 War Peace and Reconciliation invites Christians and the churches into a conversation over how to think about war from a standpoint in faith It asks how reconciliation which is central to Christian life and doctrine can engage the realities of war without surrendering its fundamental affirmations It defines these realities politically by discussing the meanings of power peace as a particular organization of power and the international system The study of war and politics is unavoidable as is the engagement with reconciliation because all human existence and activity exist in the context of the gracious work of God to renew and reconcile the fallen creation The inquiry is theocentric and

christocentric It culminates in a call to the churches to examine all their practices in the light of this perspective *War and Peace and Germany* Fred Warner Neal,1962 **War and Peace in the Law of Islam** Majid Khadduri,2010-04 Khadduri presents a lucid analysis of classical Islamic doctrine concerning war and peace and its adaptation to modern conditions Working primarily with original Muslim sources he examines the nature of the Islamic state Islamic law and the influence of Western law Other chapters consider classical Muslim attitudes toward foreign policy international trade warfare treaties and how these have developed during the twentieth century Majid Khadduri 1909 2007 was a Professor of Middle East Studies at the School of Advanced International Studies of The Johns Hopkins University and Director of Research and Education at the Middle East Institute in Washington D C He was the author of several books in English and Arabic on Middle Eastern affairs Contents Fundamental Concepts of Muslim Law I Theory of the State II Nature and Sources of Law III The Muslim Law of Nations The Law of War IV Introduction V The Doctrine of the Jihad VI Types of Jihad VII Military Methods VIII The Initiation of War IX Land Warfare X Maritime Warfare XI Spoils of War XII Termination of Fighting The Law of Peace XIII Introduction XIV Jurisdiction XV Foreigners in Muslim Territory Harbis and Mustamins XVI Muslims in Non Muslim Territory XVII Status of the Dhimmis XVIII Treaties XIX Commercial Relations XX Arbitration XXI Diplomacy XXII Neutrality XXIII Epilogue Glossary of Terms Bibliography Index A Short History of War and Peace George Herbert Perris,1920 Theologies of War and Peace Among Jews, Christians, and Muslims Albert B. Randall,1998 This study provides analyses into the concepts of war and peace as found in the Jewish Christian and Muslim religions It covers topics such as the traditions of the Prophets theologies of war theologies of peace and unholy war Thinking about Peace and War Martin Ceadel,1987 In the first book to offer a coherent intellectual framework for the study of proposals for the prevention of war Ceadel disentangles three strategic dimensions of the nuclear issue the global balance between the U S and Russia the European crisis and the British position and analyzes the cases for and against nuclear deterrence War, Peace, and Human Nature Douglas P. Fry,2013-04-25 A collection of essays from leading academics about the nature of war and the capacity for peace as applied to human nature **Why War?** Nicholas Murray Butler,1940 Appeals to public opinion made during the years 1938 and 1939 on either side of the Atlantic Their object is two fold first to convince leaders of public opinion that the only sure way to prevent war is for the nations of the world to unite to remove the causes of war and second that violent hostilities having broken out the minds of men must now be turned to such post war settlement of those differences which have brought about hostilities as will pave the way to an orderly and peaceful world Introd **War, Peace, and the Future** Ellen Key,1916 **Rethinking War And Peace** Diana Francis,2004-05-20 An entirely modern argument for the irrelevance of war as a goal in international affairs War, Peace and the Military Franz Kernic,2023-03-17 This book is a comprehensive analysis of the various social science approaches to explaining and interpreting war peace and the military Its central aim is to trace and reconstruct those basic assumptions constructed and

thought processes undertaken by modern social sciences in their research and conceptualization of military violence and the use of force In addition to such reconstruction the aim is also to enquire into the preconditions of such thought This study therefore eschews the development of an explicit strategy in the sense of a research strategy but instead is much more concerned with thinking about its subject matter by means of re thinking and reflecting upon different theoretical approaches and problems The investigation includes a critical reexamination of the tradition of military sociological research from the beginning of modern sociology to late twentieth century theoretical approaches regarding the security focused and or war driven aspects of modern society

War and Peace and War Peter Turchin,2007-02-27 From the author of End Times In War and Peace and War Peter Turchin uses his expertise in evolutionary biology to offer a bold new theory about the course of world history Turchin argues that the key to the formation of an empire is a society s capacity for collective action He demonstrates that high levels of cooperation are found where people have to band together to fight off a common enemy and that this kind of cooperation led to the formation of the Roman and Russian empires and the United States But as empires grow the rich get richer and the poor get poorer conflict replaces cooperation and dissolution inevitably follows Eloquently argued and rich with historical examples War and Peace and War offers a bold new theory about the course of world history with implications for nations today
