## Was Bleibt:

**The Cultural Politics of the German Democratic Republic** G. Ann Stamp Miller, 2004 This book deals with the intricate connection between the political structure of the East German government and cultural politics Specifically it focuses on the relationship between the government agencies and three authors It explores the difficulties the writers encountered in the 1960s with the government of East Germany and how their works did or did not conform to the cultural policy established by the GDR regime in 1951 The government believed that it was imperative for authors and artists to adhere to the literary policy of social realism prescribed by the East German Ministry of Culture An author's works were expected to conform to the political ideology of Marxism The Ministry of Culture expected writers to depict the society through the glorification of Marxism The East German cultural functionaries evaluated a piece of literature more for the author's devotion to the political doctrine than the aesthetic quality of the work If works did not conform the government agencies such as the Ministry of Culture could apply pressure to the authors in many forms censorship silencing fines prosecution surveillance and for extreme cases expatriation This study assesses three prominent writers of the former East Germany Wolf Biermann a lyricist Christa Wolf a novelist and Heiner Müller a dramatist The analysis is based on the political content of the authors works and how the West German and East German critics evaluated them Government documents from German State Archives revealed the sensitive nature of the political and writer conferences of the GDR The study analyzes how the writers interpretation of socialism increasingly deviated from that of the East German regime Over time the writers chose to express themselves in a different manner and thus encountered problems and conflicts with the Ministry of Culture

*Rifts in Time and in the Self* Cheryl Dueck, 2004 The fall of the Berlin Wall in November 1989 marked the end of East Germany's socialist regime and a new beginning for a unified German Federal Republic Cultural historians agree that the event caused one of the deepest rifts in time and thinking seen by an entire generation of Germans a rift that left its mark on the psyche of every citizen challenging notions of the personal and the political and crashing traditional understandings of the individual and the collective self In this bold rethinking of the question Cheryl Dueck goes beyond the social political and psychological discourses that Marx and Freud Foucault and Lacan viewed as the initiators of modern socialist identities to explore the literature and discourse of the quest for unity of the female subject Reading such authors as Christa Wolf Brigitte Reimann Helga Knigsdorf and Helga Schubert Dueck traces the striking fissures which run through time and through the female self haunting women within the socialist project The book shows how two generations of women writers have struggled consciously and systematically in their letters aesthetic writings and literary production to create a new language to express their own sense of self within a restrictive socialist and patriarchal system *Rifts in Time and in the Self* offers an unprecedented look at the reconceptualizations of the female subject during several phases of GDR history and women writers persistent attempt to carve out spaces of identity and community

**Christa Wolf** Sonja E. Klocke, Jennifer R.

Hosek,2018-03-19 Interest in Christa Wolf continues to grow Her classics are being reprinted and new titles are appearing posthumously becoming bestsellers and being translated Energetic scholarly debates engage well known aesthetic and political issues that the public intellectual herself fore fronted This broad ranging introduction to the author her work and times builds upon and moves beyond such foundational interpretative frameworks by articulating the global relevance of Wolf s oeuvre today also for non German readers Thus it brings East German culture alive to students teachers scholars and the general public by connecting the socialist German Democratic Republic GDR and the lived experiences of its citizens to nations and cultures around the world The collection focuses on topical matters including the search for authenticity agency race cosmopolitanism gender environmentalism geopolitics war and memory debates as well as movie adaptations and Wolf s film work with DEFA marketing and international reception Our contributions by senior and emerging scholars from across the globe emphasize Wolf s position as an author of world literature and an important critical voice in the 21st century

**Phantom Images** Catherine Smale,2013 Ghosts have made an unexpected reappearance in German literature since 1989 Catherine Smale reads this as symptomatic of writers attempts to renegotiate their personal and collective identity in the wake of German reunification Focusing on two major authors from the former GDR Christa Wolf and Irina Liebmann Smale examines the ways in which their work adopts notions of haunting in its creative engagement with the double legacy of Socialism and National Socialism The ghost has long been regarded as a vehicle for making manifest taboo or unauthorized memories However Smale goes further demonstrating how the human subject is destabilized by the return of the phantom and is itself rendered insecure and spectral Drawing on a wide range of theoretical reference from the psychoanalytic concept of intergenerational phantoms to Derridean hauntology Smale s study highlights the particular challenge which Wolf and Liebmann pose to the familiar understanding of how German writers have confronted their country s troublesome past Catherine Smale is Lecturer in German at King s College London *Deutsche Kolonialfrage* ,1928
