Slips of the Tongue - A Classification Maria Dziekonska,2012-01-14 Seminar paper from the year 2009 in the subject English Language and Literature Studies Linguistics grade 1 3 University of Heidelberg Anglistisches Seminar course Slips of the tongue language English abstract Whenever people fail to utter the message they wanted to convey correctly they apologize and tend to explain their accidental mistake as a slip of the tongue However what is meant and covered by this term which is used so often to refer to speech errors Does its universality suggest that all tongue slips are of the same kind If not how can they be distinguished This term paper will try to give a more detailed categorization of speech anomalies first providing a definition what is generally seen as a slip of the tongue It will be shown who were the first linguists to examine this topic and what discoveries were made In order to give an own precise classification of speech errors different approaches for main categorizations will be presented and taken into consideration On the basis of these main categories further sub categories are elaborated and illustrated with examples given by different authors in order to explain every feature appropriately Since many authors still not agree upon a common sub classification this term paper will select the most suitable terms and definitions try to compromise about the most common ones and give suggestions for further distinctions To be conforming to the majority of the literature the most common terminology shall be used However if provided terms are inappropriate or imprecise they will be modified The types of speech errors will be ordered via the main class they belong to They will be presented as sub classes defined explained and illustrated by examples in detail Examples are marked with ordinals The incorrect utterance is always presented with an asterisk and followed by the proper realization in brackets The pronunciation of the slips is written in graphemes i e normally

w **Slips of Speech; A Helpful Book for Everyone Who Aspires to Correct the Everyday Errors of Speaking - The Original Classic Edition** John Hendricks Bechtel, 2012-02 Homer in all probability knew no rules of rhetoric and was not tortured with the consideration of grammatical construction and yet his verse will endure through time If everybody possessed the genius of Homer rules and cautions in writing would be unnecessary Today all men speak and most men write but it is observed that those who most closely follow Homer's method of writing without rules are most unlike Homer in the results The ancient bard was a law unto himself we need rules for our guidance Rules of writing are the outgrowth of the study of the characteristics and qualities of style which distinguish the best writers from those of inferior skill and ability Grammarians and rhetoricians according to their several lines of investigation set forth the laws and principles governing speech and formulate rules whereby we may follow the true and avoid the false Grammar and rhetoric as too often presented in the schools are such uninviting studies that when 4 school days are ended the books are laid aside and are rarely consulted afterward The custom of formally burning the text books after the final examinations a custom that prevails in some institutions is but an emphatic method of showing how the students regard the subjects treated in the books 2 If all the rules and principles had been thoroughly mastered the huge bonfire of text books in grammar and rhetoric might be regarded a fitting celebration of the students victory over the difficulties of English undefiled But too often these rules are merely memorized by the student for the purpose of recitation and are not engrafted upon his everyday habit of speech They are therefore soon forgotten and the principles involved are subject to daily violation Hence arises the need of books like SLIPS OF SPEECH in which the common faults of speakers and writers are pointed out and the correct use of words shown Brief and informal in treatment they will be read and consulted when the more voluminous textbooks will be left untouched The copious index appended to this volume will afford a ready reference to the many subjects discussed and will contribute greatly to the convenience and permanent value of the book Kids' Slips Jeri J. Jaeger, 2004-12-13 The study of speech errors or slips of the tongue is a time honored methodology which serves as a window to the representation and processing of language and has proven to be the most reliable source of data for building theories of speech production planning However until Kids Slips there has never been a corpus of such errors from children with which to work This is the first developmental linguistics research volume to document how online processing is revealed in young children ages 18 months through 5 years through their slips of the tongue Thus this text provides a new methodology and data source which will greatly expand our ability to uncover the details of early language development Professor Jaeger's groundbreaking book incorporates both details of her methodology and findings with implications for different aspects of language development including phonetics and phonology the lexicon semantics morphology and syntax While all the child data is included in the book a Web site hosted by the author provides readers with the adult data as well Kids Slips targets those who study language development in linguistics developmental psychology and speech and hearing as well as those who study language
