## **The Rules Of Art:**

**The Rules of Art** Pierre Bourdieu, 1996 Written with verve and intensity and a good bit of wordplay this is the long awaited study of Flaubert and the modern literary field that constitutes the definitive work on the sociology of art by one of the world's leading social theorists Drawing upon the history of literature and art from the mid nineteenth century to the present Bourdieu develops an original theory of art conceived as an autonomous value He argues powerfully against those who refuse to acknowledge the interconnection between art and the structures of social relations within which it is produced and received As Bourdieu shows art's new autonomy is one such structure which complicates but does not eliminate the interconnection The literary universe as we know it today took shape in the nineteenth century as a space set apart from the approved academies of the state No one could any longer dictate what ought to be written or decree the canons of good taste Recognition and consecration were produced in and through the struggle in which writers critics and publishers confronted one another
