Tools For The Soft Path:

Tools for the Soft Path International Project for Soft Energy Paths Staff, Jim Harding, 1982-06-01 **Tools for the Soft Path**, 1982 *Collecting Nature* Andrew G. Kirk, 2001 Finds in the history of Denver's Conservation Library a microcosm of the growth of the environmental movement as a whole Imagine Nation Peter Braunstein, Michael William Doyle, 2013-07-04 Amidst the recent flourishing of Sixties scholarship *Imagine Nation* is the first collection to focus solely on the counterculture Its fourteen provocative essays seek to unearth the complexity and rediscover the society changing power of significant movements and figures Energizing Neoliberalism Caleb Wellum, 2023-10-17 This book argues that the 1970s energy crisis in the United States fostered the rise of neoliberalism in the United States by cultivating speculative discourses about energy that ultimately supported free market values expressed in trade and energy policies by the early 1980s The book's interdisciplinary approach broadens the historiography of the energy crisis to consider the concepts meanings affects and practices that comprised it providing deeper context for the policy and geopolitical concerns that other scholars explore The World's Water 2002-2003 Peter H. Gleick, William C.G. Burns, Elizabeth L. Chalecki, Michael Cohen, Katherine Kao Cushing, Amar S. Mann, Rachel Reyes, Gary H. Wolff, Arlene K. Wong, 2002-06 *Worldchanging* Alex Steffen, 2008-03 Building a better future locally and globally is the topic of this user's guide written by a diverse collaborative of innovators *Worldchanging* demonstrates that the means for making a difference lie all around Infrastructure to 2030 (Vol.2) Mapping Policy for Electricity, Water and Transport OECD, 2007-08-17 This book assesses the long term future viability of current business models in electricity water rail and urban public transport and presents policy recommendations *New Pioneers* Jeffrey Jacob, 1997 Practically everyone I know is nursing fantasies about escaping the life they're trapped in and creating one that makes more sense writes the editor of *Utne Reader* in a recent issue The people I most admire though are those who actually do it who break free and pursue a higher calling no matter how great the risk *New Pioneers* is about one such group of people the hundreds of thousands of urban North Americans who over the past three decades have given up their city or suburban homes for a few acres of land in the countryside Jeffrey Jacob's *New Pioneers* are ordinary people who have tried to break away from the mainstream consumer culture and return to small town and rural America He traces the development of the movement and identifies seven different kinds of back to the lander the weekender country romantic purist country entrepreneur pensioner micro farmer and apprentice From over 1 300 survey responses interviews and in depth case studies at both the regional and national levels of representative back to the landers Jacob analyzes their values use of appropriate technology family division of labor on their acreages and predisposition toward environmental activism Jacob finds that back to the landers for the most part are not completely independent of the mainstream economy and consequently their lives do reflect the contradictions between the available conveniences of a high technology culture and the movement's goals of self-reliant labor He analyzes their ambivalent attitudes toward technology hoes and shovels

versus mini hydroelectric systems wood stoves versus microwave ovens and so on After examining the experiences of the back to the country people who live on the margins of a postindustrial society Jacob creates a clearer appreciation of the preconditions necessary to translate the idea of sustainable living into concrete action on a society wide scale While New Pioneers describes an important social movement it also shows how far a group of highly motivated individuals and families can go by themselves in breaking away from the prevailing consumer culture The dilemmas frustrations adaptations and triumphs of these neo homesteaders offer valuable insights to anyone contemplating a move back to the land

The Environmental Brief Richard Hyde, Steve Watson, York St John Business School Steve Watson, Wendy Cheshire, Mark Thomson, 2007-01-24 The built environment is responsible for an estimated forty five per cent of all greenhouse gas emissions As the greatest opportunities for reducing these emissions occur during the briefing and design processes the pathway to better design lies in preparing environmental briefs and using these to drive building design and produce buildings of high environmental performance This process driven book looks at the theoretical issues involved in an environmental brief and outlines methods by which architects can approach the writing of a brief that considers all aspects of the natural and the built environment and relates these concepts to a number of case studies from around the world *The Coevolution Quarterly*, 1984
