Trial by Terror Paul Gallico,1952      Political Trials in an Age of Revolutions Michael T. Davis,Emma Macleod,Gordon Pentland,2018-12-30 This collection provides new insights into the Age of Revolutions focussing on state trials for treason and sedition and expands the sophisticated discussion that has marked the historiography of that period by examining political trials in Britain and the north Atlantic world from the 1790s and into the nineteenth century In the current turbulent period when Western governments are once again grappling with how to balance security and civil liberty against the threat of inflammatory ideas and actions during a period of international political and religious tension it is timely to re examine the motives dilemmas thinking and actions of governments facing similar problems during the Age of Revolutions The volume begins with a number of essays exploring the cases tried in England and Scotland in 1793 94 and examining those political trials from fresh angles including their implications for legal developments their representation in the press and the emotion and the performances they generated in court Subsequent sections widen the scope of the collection both chronologically through the period up to the Reform Act of 1832 and extending as far as the end of the nineteenth century and geographically to Revolutionary France republican Ireland the United States and Canada These comparative and longue dur e approaches will stimulate new debate on the political trials of Georgian Britain and of the north Atlantic world more generally as well as a reassessment of their significance This book deliberately incorporates essays by scholars working within and across a number of different disciplines including Law Literary Studies and Political Science      The Study of Totalitarianism Howard D. *The Economic Development of the USSR* Roger Munting, 2023-06-14

The Economic Development of the USSR 1982 examines the economic advances the Soviet Union made as the first major economy to adopt full scale socialist planning It argues that the Soviet experience demonstrates that remarkable quantitative economic progress can be achieved but at a price which Western democracies would not tolerate Moreover while the planning and control mechanism of the USSR produced striking results in the case of agriculture it often failed to produce satisfactory results The book provides an impartial assessment of the merits and defects of the Soviet planning system which also served as a model for many other Communist countries
