Lost Washington D C looks at the cherished places in the city that time progress and fashion have swept aside The Lost

series from Pavilion Books looks back in loving detail at many of the things that have helped create a city's unique identity that have since disappeared: the streetcars, the shops, the parks, the churches, the amusement parks, the communities, even the annual parades. It looks at the landmark buildings that failed to be preserved, the hotels that could not be adapted and fell to the wrecking ball, and the novelty buildings such as the General Noble Redwood Treehouse which stood on the Mall from 1894 to 1932. Lost buildings include the Washington Arsenal and Washinton Penitentiary where the Lincoln conspirators were hanged. The distinctive Center Market building which was razed along with Arcade Liberty and Dutch Markets. Many theaters have gone: Victorian Albaugh's Opera House and Art Deco Translux, but the grandiose Fox entrance remains to front a modern office block. Other sites include Hoover Airport, the Matthew Brady and L. C. Handy studios, the Ebbitt House Hotel, commerce on the Chesapeake and Ohio Canal, Baltimore and Portomac Railroad Station, faux castles such as Henderson's and Stewart's, the Corcoran School of Art, and many Victorian vistas of Washington from the top of the Capitol and Washington Monument.

The Historic Waterfront of Washington, D.C. John R. Wennersten, 2014-03-18. The waters of the Potomac and the Anacostia Rivers surround and define the nation's capital. For centuries, these rivers have been manipulated, environments transformed by native populations, settlers, politicians, and real estate developers. With docks and wharves extending from the Anacostia River to Georgetown, the architect of the young capital, Pierre L. Enfant, planned to develop the waterfront into a prosperous inland seaport. Decades later, the Civil War took a devastating toll on the District's maritime economy, with civilian port facilities pressed into military service and the failure of many riverfront plantations. Author John R. Wennersten explores this early history of Washington, D.C.'s waterfront, even as he tackles its twentieth century redevelopment and the challenges the rivers face today.
