Economics Made Fun N. Aydinonat, Jack Vromen, 2017-10-02 Best selling books such as Freakonomics and The Undercover Economist have paved the way for the flourishing economics made fun genre While books like these present economics as a strong and explanatory science the ongoing economic crisis has exposed the shortcomings of economics to the general public In the face of this crisis many people including well known economists such as Paul Krugman have started to express their doubts about whether economics is a success as a science As well as academic papers newspaper columns with a large audience have discussed the failure of economic to predict and explain ongoing trends The emerging picture is somewhat confusing economics made fun books present economics as a method of thinking that can successfully explain everyday and freaky phenomena On the other hand however economics seems to fail in addressing and explaining the most pressing matters related to the field of economics itself This book explores the confusion created by this contradictory picture of economics Could a science that cannot answer its own core questions really be used to explain the logic of everyday life This book was originally published as a special issue of the Journal of Economic Methodology

The New Geopolitics of Sport in East Asia William Kelly, J.A. Mangan, 2015-09-07 The global geopolitics of sport is being transformed in and by East Asia Sport in recent decades has been avidly embraced by East Asian nations with implications both for their image on the international stage and their domestic national identities The three post war East Asian Olympic Games the glittering Guangzhou Asian Games in 2010 and the march of Asia into the global sport market illustrate the fact that a new global sports order has emerged This collection uniquely discerns the tectonic shift of global power in the geopolitical economic cultural and social dynamics of sport from West to East It also reveals that the global empire of commerce is similarly shifting eastwards The chapters written by leading authorities on East Asia widens the focus advances the knowledge and sharpens the appreciation of both global sport and regional current transformation in the making and in doing so contributes to an understanding of profound changes in global sport This book was originally published as a special issue of The International Journal of the History of Sport
