SOME SURVIVED

AN EYEWITNESS
ACCOUNT OF THE
BATAAN DEATH MARCH
AND THE MEN WHO
LIVED THROUGH IT

MANNY LAWTON

with an introduction by JOHN TOLAND

Lester Martin Jones

Some Survived:

Some Survived Manny Lawton,2004-01-03 Manny Lawton was a twenty three year old Army captain on April 8 1942 when orders came to surrender to the Japanese forces invading the Philippine Islands The next day he and his fellow American and Filipino prisoners set out on the infamous Bataan Death March a forced six day sixty mile trek under a broiling tropical sun during which approximately eleven thousand men died or were bayoneted clubbed or shot to death by the Japanese Yet terrible as the Death March was for Manny Lawton and his comrades it was only the beginning When the war ended in August 1945 it is estimated that some 57 percent of the American troops who had surrendered on Bataan had perished But this is not a chronicle of despair It is instead the story of how men can suffer even the most desperate conditions and in their will to retain their humanity triumph over appalling adversity An epic of quiet heroism *Some Survived* is a harrowing poignant and inspiring tale that lifts the heart

Interdisciplinary Studies in Pragmatics, Culture and Society Alessandro Capone, Jacob L. Mey,2015-07-31 This volume is part of the series Pragmatics Philosophy and Psychology edited for Springer by Alessandro Capone It is intended for an audience of undergraduate and graduate students as well as postgraduate and advanced researchers This volume focuses on societal pragmatics One of the main concerns of societal pragmatics is the world of language users We are interested in the investigation of linguistic practices in the context of societal practices praxis to use a term used in the Wittgensteinian and other traditions It is clear that the world of users including their practices their culture and their social aims has to be taken into account and seriously investigated when we deal with the pragmatics of language It is not enough to discuss principles of language use solely in the guise of abstract theoretical tools Consequently the present volume focuses explicitly on the interplay of abstract theoretical principles and the necessities imposed by societal contexts often requiring a more flexible use of such theoretical tools The volume includes articles on pragmemes politeness and anti politeness dialogue joint utterances discourse markers pragmatics and the law institutional discourse critical discourse analysis pragmatics and culture cultural scripts argumentation theory connectives and argumentation language games and psychotherapy slurs the analysis of funerary rites as well as an authoritative chapter by Jacob L Mey on societal pragmatics

Surviving Mass Victim Attacks Gary M. Jackson,2018-09-22 We have all witnessed media reports of the aftermath of mass victim attacks We see the carnage and we know that attackers do not show mercy Victims were innocent and were targeted simply for being a part of a small or large group of people Whether a bomb semi automatic weapon knife or vehicle the attacker strikes quickly and without mercy Victims may have been dining in a restaurant relaxing at a bar participating in school classes attending a workplace activity or simply walking on the street Because of the horrific and effective nature of such attacks we are often left fearing that little to nothing can be done if the unthinkable happens and we are caught in such a merciless attack *Surviving Mass Victim Attacks* presents specific and valuable strategies for survival if the unthinkable happens and serves as a practical guide to anyone who wishes to be more

knowledgeable and better prepared if caught in an attack themselves Gary Jackson is a behavioral psychologist threat expert with operational experience who analyzes how victims have managed to survive past mass victim attacks committed by international terrorists domestic terrorists self radicalized terrorists those with mental health issues and those driven by hate and bias to present strategies that anyone can use to increase their chances of survival if the unthinkable happen Throughout different types of mass victim attackers their methods how and what they target and how to use characteristics of the location to increase survival are addressed The book uses real life examples to illustrate survival the strategies presented are easily understood and do not require special skills to execute By reading *Surviving Mass Victim Attacks* you will be better able to know what to expect how to prepare proactively and how to respond in a way that will save your life *The Revised Reports* Frederick Pollock, Robert Campbell, Oliver Augustus Saunders, Arthur Beresford Cane, Joseph Gerald Pease, William Bowstead, 1914 *Father Found* Duane Heisinger, 2003 **Sweden** Victor Alfred Nilsson, 1899 **Bulletin**, 1906

National Institute of Health Bulletin National Institute of Health (U.S.), 1947 **Wings of a Raven, 2028AD** Mike Koontz, 2017-08-09 2028AD is a real life inspired sci fi universe stretching across several books and stand alone short stories depicting life on Earth and beyond as our wasteful life take the human species and planet Earth beyond the gates of man made Ragnarok While the Universe is large and the stories go far beyond Earth and the mundane the first book tells a small and fairly short everyday life story about a few individual people and their contemporary life a decade or so from now as we follow their tiny little footprints of thoughts and love fear despair melancholy laughter and needs in that whirlwind of life in the Anthropocene which we too inhabit They had departed drifting through the high seas Ragnarok 5 was their designation but the wolfpack of ships was scattered and silence was all that remained from the outside world **Conduct Under Fire** John A. Glusman, 2006-04-25 The fierce bloody battles of Bataan and Corregidor in the Philippines are legendary in the annals of World War II Those who survived faced the horrors of life as prisoners of the Japanese In *Conduct Under Fire* John A Glusman chronicles these events through the eyes of his father Murray and three fellow navy doctors captured on Corregidor in May 1942 Here are the dramatic stories of the fall of Bataan the siege of the Rock and the daily struggles to tend the sick wounded and dying during some of the heaviest bombardments of World War II Here also is the desperate war doctors and corpsmen waged against disease and starvation amid an enemy that viewed surrender as a disgrace To survive the POWs functioned as a family But the ties that bind couldn't protect them from a ruthless counteroffensive waged by American submarines or from the B 29 raids that burned Japan's major cities to the ground Based on extensive interviews with American British Australian and Japanese veterans as well as diaries letters and war crimes testimony this is a harrowing account of a brutal clash of cultures of a race war that escalated into total war Like *Flags of Our Fathers* and *Ghost Soldiers* *Conduct Under Fire* is a story of bravery on the battlefield and ingenuity behind barbed wire one that reveals the long shadow the war cast on the lives of those who fought it **The Law Reports** Great Britain. Parasitology ,1917 **Argument Evaluation and Evidence** Douglas Walton,2015-08-04 This monograph poses a series of key problems of evidential reasoning and argumentation It then offers solutions achieved by applying recently developed computational models of argumentation made available in artificial intelligence Each problem is posed in such a way that the solution is easily understood The book progresses from confronting these problems and offering solutions to them building a useful general method for evaluating arguments along the way It provides a hands on survey explaining to the reader how to use current argumentation methods and concepts that are increasingly being implemented in more precise ways for the application of software tools in computational argumentation systems It shows how the use of these tools and methods requires a new approach to the concepts of knowledge and explanation suitable for diverse settings such as issues of public safety and health debate legal argumentation forensic evidence science education and the use of expert opinion evidence in personal and public deliberations **Report of the Annual Meeting of the South African Association for the Advancement of Science** ,1922 *Inside the Bataan Death March* Kevin C. Murphy,2014-10-27 For two weeks during the spring of 1942 the Bataan Death March one of the most widely condemned atrocities of World War II unfolded The prevailing interpretation of this event is simple American prisoners of war suffered cruel treatment at the hands of their Japanese captors while Filipinos sympathetic to the Americans looked on Most survivors of the march wrote about their experiences decades after the war and a number of factors distorted their accounts The crucial aspect of memory is central to this study how it is constructed by whom and for what purpose This book questions the prevailing interpretation reconsiders the actions of all three groups in their cultural contexts and suggests a far greater complexity Among the conclusions is that violence on the march was largely the result of a clash of cultures undisciplined individualistic Americans encountered Japanese who valued order and form while Filipinos were active even ambitious participants in the drama *The United Editors Perpetual Encyclopedia* ,1909 **Quakers in Action** Lester Martin Jones,1929 **A Narrative of the Voyages and Travels of Captain Beechey ... to the Pacific and Behring's Straits** ,1889 **Pre-historic Times** Sir John Lubbock,1904 **The Principles of Pathology: Systemic pathology** John George Adami,Albert George Nicholls,1911
