Marrs, 2013-02-12 The author of Alien Agenda illustrates how human civilization may have originated with non humans who

visited earth eons ago and may still be here For years we've been taught that human progress has been a long slow climb

from the primordial ooze to hunter gatherers to empires But what if that's only part of the story Bestselling author and

legendary conspiracy researcher Jim Marrs who has investigated the recent financial crisis the JFK assassination and the

national socialist takeover of America now takes on his biggest subject the history of mankind Our Occulted History

overturns conventional knowledge and beliefs presenting compelling evidence that the earth once hosted prehistoric

civilizations using technologies that very well may have surpassed our own Sound unbelievable Just a few hundred years ago

so was the concept that the earth revolved around the sun Marrs sifts through the historical scientific and cultural record

showing how numerous ancient texts and tablets tell of visitors from the stars colonizing the earth From the flying vimanas of

the Hindu Vedic literature and the flying shields reported by the Romans to the mysterious airships of the 1800s and the

UFOs of today he argues that someone other than us is still present on this planet But are these visitors simply observers or

do they play a much more active and controlling role Jim Marrs raises this shocking question and more in the provocative and

persuasive Our Occulted History The truth is out there and in here *Congressional Record* United States. Congress, 1977
