

Test Taking Strategies

It is normal to feel a little bit nervous or stressed before a test. Almost everyone does! These proven test-taking strategies can help you feel less stressed and do better on your tests.

#1 Do the Word Problem Questions First

Before you look at any of the other questions, find the word problems, and do these questions first. Word problems take a lot of brain power, more time than simple calculations or multiple choice. So it's best to tackle them when your brain is fresh at the beginning of the test.

#2 Take your time

Don't be this guy! Remember to take your time and double-check your answers. Checking your answers means going back and making sure that your solutions make sense. First, check your multiplication and other operations to be sure you read the question correctly. Then, plug your answer back into the equation if you have solved anything algebraically and see if it works.

#3 Manage your time

Be sure you know how much time is left. For example, if you have 60 minutes to answer 30 multiple choice questions, you have about two minutes for each question. So check the clock and make sure you have enough time to complete every question. Just remember - Do not rush through the test!

#4 Read all questions thoroughly

Always read the question thoroughly and carefully. Make sure you know and understand what the question is asking you. If you don't, raise your hand and ask your teacher for assistance.

#5 Eliminate Answers

Most multiple-choice tests have 2 similar answers and 2 answers that do not make any sense. Eliminate the choices that make no sense by marking a line through them. Then you will only have 2 answer choices to choose from. Solve the problem and choose the best one. Remember that you can also use the answers to help you solve the problem if you are stuck and unsure of what to do.
