 book combines two main perspectives the study of the social unconscious and the study of fairy tales Examining different

 cultural aspects of the social unconscious Exploring the unique status of fairy tales as located on the border line between  
 concrete somatic and abstract linguistic realms sheds light on different levels of the human mind The book focuses on a  
 specific phenomenon common in fairy tales a realization of idiomatic expressions a phenomenon in which an abstract mental  
 idea is hidden behind a concrete event embedded in the plot Deciphering the abstract idea out of the pictorial world of the  
 fairy tale enables to understand the stories in a way which is not available otherwise The book suggests interdisciplinary  
 examination reminding us the rich deep messages hidden in fairy tales and connecting us to early developments in the field  
 of psychoanalysis by suggesting new interpretation to old ancient material *MORE Tadpole Tales and Other Totally
