Tale Of The Unknown Island:

The Tale of the Unknown Island José Saramago, 1999 In this richly imagined fable of love written by a 1998 Nobel Prize winner and illustrated by an award winning artist a man comes knocking at a king's door to petition a boat. Readers learn where he's bound and who volunteers to be on his crew. Color line art throughout

Romantic Dialogues and Afterlives Monika Coghren, Anna Paluchowska-Messing, 2020 Romantic writers often asserted their individuality but this assertion tended to take the form of positioning themselves in relation to other authors and literary texts. Thus they implicitly acknowledged the rich network of broadly understood poetic dialogue as an important and potent source for their own creativity. When in 1816 John Keats wrote "Great spirits now on earth are sojourning," he celebrated the originality of his contemporaries and the historical significance of his times, pointing to deep interest in the hum of mighty works in all the fields of human activity to which the nations ought to listen. Keats's sonnet suggests not only stimulating exchanges between poets, artists, and social thinkers in the same language but also the idea of transnational appreciation and dialogue. The volume takes up this idea and explores the dialogues of Romantic authors within the wide scope of European and American cultures. Essays by scholars from Germany, Britain, Bulgaria, Poland, Canada, and the United States of America examine Romantic writers' responses to their contemporaries, explore their dialogues with the culture of the past and their interactions across the arts and sciences. They also scrutinize the Romantics' far-reaching influence on later writers and artists and thus extend the network of artistic exchange to modern times. The volume offers a rich tapestry of interconnections that span across time and space, interlace languages and cultures, and link Romantic writers and artists with their predecessors and successors across Europe and America. The essays in the collection invite the reader to join ongoing dialogues between writers and their audiences of the past and present.

[Shipwreck and Island Motifs in Literature and the Arts](#), 2015-05-19 The motifs of island and shipwreck have been present in literature and the arts from ancient times. Whether they occur as plot elements, as part of literary or film imagery, as symbols in paintings, as leitmotifs in songs, or as concepts in philosophical theories, both have always been a source of fascination to authors, artists, and scholars. In *Shipwreck and Island Motifs in Literature and the Arts*, Brigitte Le Juez and Olga Springer have gathered essays that explore shipwreck and island figures in texts as historically, culturally, and artistically diverse as Walter Scott's *The Lord of the Isles*, Cristina Fernández de Cuba's *The Lighthouse*, reality TV series *Treasure Island*, pop songs of the BBC Radio programme *Desert Island Discs*, or The Otolith Group's essay film *Hydra*. **A Responsibility to the World: Saramago, Politics, Philosophy** Burghard Baltrusch, Carlo Salzani, Kristof K. P. Vanhoutte, 2023-11-22 In a 1987 interview, José Saramago eloquently expressed what could be considered his political philosophical manifesto: Human beings should not content themselves with the role of mere observers. They bear a responsibility to the world; they must actively engage and intervene. In 1998, the celebrated writer was honoured with the Nobel Prize for Literature. So Saramago did not only as a human being and a citizen but also as an artist.

refuse to be a passive observer Despite his profound and always critical pessimism he tirelessly propelled both his public and artistic persona toward impactful actions and interventions showcasing an unwavering dedication to reshaping the world This volume seeks to delve into this facet of his legacy exploring it from diverse political and philosophical perspectives

Ecologies of Affect Tonya K. Davidson, Ondine Park, Rob Shields, 2013-06-01 Ecologies of Affect offers a synthetic introduction to the felt dynamics of cities and the character of places The contributors capture the significance of affects including desire nostalgia memory and hope in forming the identity and tone of places The critical intervention this collection of essays makes is an active consistent engagement with the virtualities that produce and refract our idealized attachments to place Contributors show how place images and attempts to build communities are rather than abstractions fundamentally tied to and revolve around such intangibles We understand nostalgia desire and hope as virtual that is even though they are not material they are nevertheless real and must be accounted for In this book the authors take up affect emotion and emplacement and consider them in relation to one another and how they work to produce and are produced by certain temporal and spatial dimensions The aim of the book is to inspire readers to consider space and place beyond their material properties and attend to the imaginary places and ideals that underpin and produce material places and social spaces This collection will be useful to practitioners and students seeking to understand the power of affect and the importance of virtualities within contemporary societies where intangible goods have taken on an increasing value

Beatrice Rambaut, 1900 On Saramago, 2001 For many decades Jos Saramago has been a staunch defender of the role of literature to both serve and be perceived as public discourse When in October 1998 he became the first Portuguese language author to be awarded the Nobel Prize for Literature his conviction was supported by the assurance that at any rate this particular writer's literary discourse was guaranteed to be widely and globally publicized If as Wlad Godzich has claimed the severely limited possibility of public discourse in the contemporary world is compensated by the ever multiplying variety of ways to publicize discourses Workshop Saramago has taken full advantage of the opportunities offered in this respect by the Nobel prize as probably the most effective institutionalized instrument of publicity that high literary discourse which is produced worldwide has at its annual disposal His international visibility greatly amplified Saramago could be seen in the last two years shuttling the globe and making globally publicized statements on behalf of the many political causes that have attracted his attention and support Publisher's description **Book Notes**, 1898 **Book Bulletin**, 1917 **The Westminster Review**, 1891 **The girl captives, by B.
