Tales From Within:

The Politics of Interweaving Performance Cultures Erika Fischer-Lichte, Torsten Jost, Saskya Iris Jain, 2014-01-10 This book provides a timely intervention in the fields of performance studies and theatre history and to larger issues of global cultural exchange The authors offer a provocative argument for rethinking the scholarly assessment of how diverse performative cultures interact how they are interwoven and how they are dependent upon each other While the term intercultural theatre as a concept points back to postcolonialism and its contradictions *The Politics of Interweaving Performance Cultures* explores global developments in the performing arts that cannot adequately be explained and understood using postcolonial theory The authors challenge the dichotomy the West and the rest where Western cultures are universal and non Western cultures are particular as well as ideas of national culture and cultural ownership This volume uses international case studies to explore the politics of globalization looking at new paternalistic forms of exchange and the new inequalities emerging from it These case studies are guided by the principle that processes of interweaving performance cultures are in fact political processes The authors explore the inextricability of the aesthetic and the political whereby aesthetics cannot be perceived as opposite to the political rather the aesthetic is the political Helen Gilbert s essay *Let the Games Begin Pageants Protests Indigeneity 1968 2010* won the 2015 Marlis Thiersch Prize for best essay from the Australasian Drama Theatre and Performance Studies Association

Popular Tales of the West Highlands Orally Collected John Francis Campbell, 1890 **Chaucer and the Making of English Poetry, Volume 2** P. M. Kean, 2019-09-23 Originally published in 1972 This important work of Chaucerian scholarship deals with two aspects of the poet and his work his individual achievement and his place in history and demonstrates that in both these senses Chaucer is a maker of English poetry The author explores Chaucer s narrative art The book includes an examination of the puzzling question of narrative structure in the *Canterbury Tales* and of the nature of Chaucerian comedy in these works The author surveys the major themes of the poems Fortune and free will marriage and the nobleness of man In the final chapter she treats of the meaning of Chaucer s art for his successors Throughout the work Miss Kean deals extensively with the sources which Chaucer used for the writing of his poems in a way which directs light on the more difficult aspects of his art [The Testament of Job](#)

Maria Haralambakis, 2012-09-06 Maria Haralambakis provides a wide ranging study of the pseudepigraphon the *Testament of Job* Haralambakis begins with textual issues considering the recent publication of a 4th century Coptic codex of the text as well as the more well know Byzantine Greek manuscripts However she also considers a much larger number of Slavonic manuscripts than many scholars Rather than working backwards from the most recent manuscripts to a hypothetical original text Haralambakis presents the manuscripts from earliest to latest as a succession of witnesses to the text of the *Testament of Job* each valuable as evidence of its contemporary world Haralambakis moves on to examine the structure of the *Testament* as a remarkable literary work employing narrative theory to demonstrate how the composition works as a well

crafted appealing story Gleaning insights from the text s widespread presence in Byzantine and Slavonic Christian churches Haralambakis examines its reception history asserting that in these contexts the story came to be viewed as something akin to a life of saint

Paradox, Aphorism and Desire in Novalis and Derrida Clare Kennedy,2008 Building on recent investigations into affinities between early German Romanticism and French post structuralism this study brings together the work of Jacques Derrida with the writings of one of early Romanticisms most important theorists Friedrich von Hardenberg 1772 1801 better known as Novalis In contrast to recent criticism which traces the historical path from Romanticism to modern theory in broad strokes this book undertakes comparative readings of Novaliss and Derridas texts on literature and philosophy The book focuses on the significance both writers accord to paradox and argues that readings which are attuned to paradox can better appreciate the proximity of Romanticism and post structuralism As well as their affirmation of paradox the texts of Novalis and Derrida testify to a profound respect for the Other and the close readings of selected texts reveal remarkable similarities in their thinking on literature philosophy and representation and on the intricate interrelation between language identity and desire
