The Dangerous Edge:

The Dangerous Edge Michael J. Apter, 1992 Why do many people enjoy risky activities skydiving bullfighting or fast driving that cause fear in others Every normal human being seems to need excitement at times yet for years this need remained largely unstudied Now a professor of psychology explains why we experience the need for excitement at various times and what happens when excitement seeking goes wrong [The Dangerous Edge](#) Gavin Lambert, 1976 An essay in collective biography studying turning points in the lives of mystery writers which he feels determined their later styles and approaches Wilkie Collins Conan Doyle Chesterton Buchan Graham Greene Ambler Simenon Chandler Hitchcock Misha Schutt *The Dangerous Edge* Ted Allbeury, 1991 [The Dangerous Edge](#) William Frederick Temple, 1951 *The dangerous edge* Robert Daley, 1987 **The Dangerous Edge. Carter, J. Kourdi, 2003-09-16 Being audacious and adventurous can be inspiring yet many of us hesitate to follow this path because of our concerns for comfort and security In this bold book Carter and Kourdi examine a radical new approach to being successful The authors argue that success comes most easily to those who accept and harness the beneficial effects of risk Communicating simple but powerful ideas with passion this book guides individuals and organizations through the techniques that will help them to become more vigorous motivated effective and ultimately successful Including original interviews and insights from people that have used audacity to get where they are Road to Audacity shows why current approaches to life and work are increasingly outmoded This book is vital reading for anyone who wants to make a success of their career and their life [Dangerous Edge](#) Estelle Louise Hewitt, 1939 [Christ in a Choppie Box](#) Michael Sadgrove, 2015-10-01 An edited collection of sermons preached by Michael Sadgrove during his time as Dean of Durham 2003 2015 Thought provoking and inspiring Foreword by Justin Welby *An Alternative History of Bicycles and Motorcycles* Steven E. Alford, Suzanne Ferriss, 2016-04-06 An Alternative History of Bicycles and Motorcycles Two Wheeled Transportation and Material Culture accounts for the nineteenth century creation and development of two wheeled vehicles both human powered and motorized Specifically the book focuses on the period from 1885 which saw the appearance simultaneously of the Safety bicycle and the Einspur the first motorcycle to 1920 while exploring implications for later bicycling and motorcycling We argue that invention of these vehicles rather than the product of gifted individuals should be seen as the consequence of a number of historical economic cultural and political forces that intersect so unpredictably that the notion of a genius inventor is reductive The common evolutionary model of development from the bicycle to the

motorcycle oversimplifies both the technology and its origins Stripping the vehicles of all their material and cultural associations such a model fails to advance our understanding of the devices their creators and their riders Taking a contemporary vehicle and tracing its lineage creates a false sense of evolutionary necessity in its creation and fails to account for the many possible developmental paths that were for whatever reason abandoned By contrast our book adopts a material culture approach a form of inquiry that stresses the connections between artifacts and social relations We consider not simply the bicycle and motorcycle as material objects but focus also on the complex socio political and economic convergences that produced the materials materials that in turn themselves shaped the vehicles appearance function and adoption by riders
