

## ^ Modernization and globalization

**Globalization** can be defined as the integration of economic, political and social cultures. It is argued that globalization is related to the spreading of modernization across borders.

Global trade has grown continuously since the European discovery of new continents in the **Early modern period**; it increased particularly as a result of the **Industrial Revolution** and the mid-20th century adoption of the **shipping container**.

Annual trans-border tourist arrivals rose to 456

million by 1999 and almost tripled since, reaching a total of over 1.2 billion in 2019. **Communication** is another major area that has grown due to modernization. Communication industries have enabled capitalism to spread throughout the world. Telegraphy, television broadcasts, news services and online service providers have played a crucial part in globalization. Former U.S. president **Lyndon B. Johnson** was a supporter of the modernization theory and believed that
