Transpersonal Hypnosis Eric D Leskowitz, 2019-05-23 Transpersonal Hypnosis presents a multidimensional energy based view of human awareness that integrates disparate biological psychological and spiritual therapeutic techniques Each of the chapters all from world renowned contributors includes both a historical overview and the theory behind the development of each technique The authors emphasize experimental studies that examine the validity of using hypnotically accessed transpersonal states of consciousness to heal the body mind and spirit Several clinical vignettes highlight the types of medical and psychological symptoms responsive to these approaches The emerging field of spiritually influenced treatments is transforming the practice of medicine

Finding True Magic: Transpersonal Hypnosis & Hypnotherapy/NLP Jack Elias, 2005-12-31 Finding True Magic is the primary training text for the Transpersonal Hypnotherapy NLP Certification Program offered by the Institute for Therapeutic Learning Finding True Magic and the Transpersonal Hypnotherapy NLP trainings are appropriate for laypeople seeking personal growth as well as for therapists and other professionals intent on advancing their therapeutic skills In fact about 50 per cent of ITL students take the training primarily for personal development This book explores the possibilities for recognizing and freeing ourselves from a destructive process of perceiving thinking and acting that can be viewed as a pernicious worldwide syndrome Unlike other ailments which we strive to isolate and cure this insidious fever has a characteristic that makes us blind to its presence we come to identify its symptoms as our own true self We lovingly speak of this disease as our ego our sense of limited separate selfhood Jack Elias calls it egoic minding because it is a process not a thing Egoic minding is a fragmented biased way of perceiving and thinking It can be viewed as a sort of destructive hypnotic trance that causes us to experience each other as strangers as different as threats The delirium of this trance causes us to do violence to each other and to our world without ever recognizing that it our egoic thought process is the true enemy By synthesizing insights and techniques of Eastern and Western philosophy and psychology Finding True Magic explores various ways to disperse the feverish trance of egoic minding heal the trauma it causes and wake us up to the sacred magic of our true Self This true inner Self is the wellspring of our capacity for cooperation community building and the celebration of life Everyone has the right to the make use of the essential insights of healing communication without resorting to the long term expense of a professional intermediary Therapy should change simply because there is a more effective approach to healing and personal growth That approach the subject of this book relies on each person s inherent goodness a resource that is surprisingly easy to contact in the space between egoic thoughts

Leskowitz, 2010-08 Transpersonal Psychology and hypnotherapy are both at the forefront of current developments in the conceptualization and the treatment of illness A psychiatrist presents a multidimensional energy based view of human awareness that integrates numerous disparate biological psychological and spiritual techniques This timely book is part of the rising worldwide interest in holistic and

spiritual practices to bring about greater health and happiness Chapters include a historical overview and the theory behind the development of each technique The emphasis is on experiential studies that examine the validity of these methods Several clinical vignettes highlight the types of medical and psychological symptoms responsive to these approaches The text also supplies relevant references for further study The emerging field of spiritually influenced treatments is transforming the practice of medicine This book being a Gateway to Body Mind and Spirit is at the forefront of the integration of holistic practices with established attitudes and therapies This provocative approach inspires reconsideration stimulates debate and sets the state for new healthcare developments in the coming century This book includes references from many modern day leaders in the holistic and integrative health field in addition to historical quotes from well known spiritual teachers Various therapeutic concepts are exemplified through case histories that have been recorded by the author and transcribed into print including spirit guide channeling sessions from coworkers and past life regressions involving psychiatric clients memories of reincarnation Controversial yet inspirational A must read *Hypnosis* Bhupendra Maganlal Palan, 2011 Papers presented at the National Conference on Hypnotherapy the Therapy of New Millennium held at Vadodara during 9-11 January 2009
