Voodoo Truth And Fantasy:

Voodoo Laënnec Hurbon,1995 Out of Africa came the cult of spirits who could enter human beings and cross the boundary between life and death Carried across the Atlantic to the New World voodoo gave the slaves in the West Indies a new sense of identity and hope But around it clustered sinister tales of sorcery animal sacrifice and zombies Seen as dangerous and taboo voodoo became an underground religion This book shows how voodoo has survived the prejudice and persecution of the past and how it thrives today as a cultural force *Voodoo* Laënnec Hurbon,1995 **Voodoo** ,1995

Joseph,2020-04-15 In Revolutionary Change and Democratic Religion Celucien Joseph provides a fresh and careful reexamination of Haiti s intellectual history by focusing on the ideas and writings of five prominent thinkers and public intellectuals Toussaint Louverture Joseph Antenor Firmin Jacques Roumain Dantes Bellegarde and Jean Price Mars The book articulates a twofold argument First of all Haiti has produced a strong intellectual tradition from the revolutionary era to the postcolonial present and that Haitian thought is not homogeneous and monolithic Joseph puts forth the idea that the general interweaving themes of rhetoric the race concept race vindication universal emancipation religious pluralism secular humanism the particular and the universal and cosmopolitanism are representative of Haiti s intellectual tradition Secondly the book also contends that Haitian intellectuals have produced a religious discourse in the twentieth century that could be phrased religious metissage The religious ideas of these thinkers have been shaped by various forces ideologies religious traditions and philosophical schools In the same way the religious experience of the Haitian people should be understood in terms of conflicting heterodox and pluralistic manifestations of religious piety as the people in Haiti reacted to the crisis of slavery Western colonialism and imperialism and the arrogance of race in modernity in their striving to reposition themselves within the framework of universal and human metanarratives The book departs from the dominant contemporary Vodou scholarship that is often characteristic of

North American and Western studies on the religious life of the Haitian people and Haitian thinkers *Horror Comics and Religion* Brandon R. Grafius, 2024-12-02 While many genres offer the potential for theological reflection and exploration of religious issues the nature of horror provides unique ways to wrestle with these questions Since EC Comics of the 1950s horror comics have performed theological work in ways that are sometimes obvious sometimes subtle but frequently surprising and provocative This collection brings together essays covering the history of horror comics from the 1950s to the present with a focus on their engagement with religious and theological issues Essays explore topics such as the morality of EC Comics cosmic indifference in the works of Junji Ito the reincarnated demons of the web comic *The Devil is a Handsome Man* religion and racial horror in comic voodoo and much more **Politics of Anthropology at Home II** Christian Giordano, Ina-Maria Greverus, Regina Rohmchild, 2000 *New African*, 1995 **Re-visions** Karel Arnaut, 2000

period by taking as its jumping off point the debate over continuity and change and has as its central concerns the issues of conflict control and resistance The issues covered by the contributors include law and the penal system riots and social uprising labour control religion marriage and other areas of cultural interest This collection is a result of a fruitful collaboration between the Centre for Caribbean Studies at the University of Warwick and the UNESCO York University Nigerian Hinterland Project funded by the Canadian Social Sciences and Research Council Henri Cartier-Bresson. by Clément Chroux Clément Chéroux,2008 Henri Cartier Bresson s photography came to define the 20th century This book tells his life story through his images all the major events from his youth to his death in 2004 are described contextualized and analysed in the light of his photographic work From his early encounters with the Surrealists his film work and his experiences in the Second World War to the development of his own personal aesthetic the concept of the decisive moment and the foundation of Magnum Photos his influence on the world has been profound and unforgettable *Raw Creation* John Maizels,2000-09-20 The art of self taught artists including visionaries folk creators spiritualists recluses the mad and the socially marginalized was once scorned by the art establishment Among the first to value and collect such works was the French artist Jean Dubuffet 1901 85 who coined the term Art Brut or raw art He saw Art Brut as the purest form of creation because it was uncooked by culture touched by a raw nerve and deriving directly from the psyche Some 50 years later a wave of enthusiasm for contemporary folk art has gripped countries as far apart as India and the United States John Maizels ties these disparate strands together providing an extensive survey of the self taught art of the twentieth century Today a bewildering range of terminology has emerged along with growing enthusiasm for strains of creative expression outside the conventional art world In *Raw Creation* Maizels traces the history of the recognition and study of this art and examines different theories and definitions that have grown up around it He provides detailed expositions of the work of individual artists ranging from such Art Brut masters as Adolf Wolfli and Aloise Corbaz to such gifted American folk artists as Bill Traylor and Mose Tolliver Devoting several chapters to large scale visionary environments Maizels takes a broad view embracing Rodia towers in Watts Los Angeles the Palais Id al in the South of France and Nek Chand s sculpture garden in north India *Raw Creation* provides an indispensable guide to self taught art and a fascinating account of human creativity
