

SOCIOLOGICAL PARADIGMS

Sociological paradigms are the broad schools of thought in sociology. The three key sociological paradigms are functionalism, conflict theory, and symbolic interactionism.

1. FUNCTIONALISM

Argues that social stability is a prerequisite for a healthy and strong society. Social institutions contribute towards social stability. Abrupt social change imperils social order.

2. CONFLICT THEORY

Argues that society is built upon enduring inequality on the basis of social class, gender, race etc. Structural social change is required to create an egalitarian society.

3. SYMBOLIC INTERACTIONISM

Argues that we construct society through a range of symbols (e.g., words, gestures) and social interactions. People make up their roles as they interact.
