Consultation-Liaison Psychiatry Hoyle Leigh, 2012-12-06 The essential role of the psychiatrist as consultant and educator of primary care physicians is increasing in importance as the American health care system faces fundamental restructuring In a recent workshop during the annual meeting of the American Psychiatric Association a number of prominent consultation liaison psychiatrists reviewed major developments in consultation liaison psychiatry during the past decade and looked toward the future This book is based on these presentations but it is not simply a proceedings book A number of additional experts have contributed important chapters and all the chapters based on the presentations are expanded and updated Thus this book reviews the current state of consultation liaison psychiatry and anticipates future challenges It also informs the reader about the state of the art knowledge and skills in consultation liaison psychiatry as of 1994 This book should be a valuable up to date overview refresher for both consultation liaison psychiatrists and general psychiatrists who wish to update and

formulate his her consultant role It should be especially valuable for psychiatric residents for whom the role as consultant to primary physicians assumes increasing importance and for primary physicians and medical students who are interested in learning about commonly encountered complex biopsychosocial problems of their patients and integrating these dimensions in patient care I am grateful to Mary Safford and Eileen Bermingham of Plenum for their help with the preparation and production of this book I am also thankful to Anita Shaw for her secretarial help Hoyle Leigh M D
