Gordon,2009-04-13 To help large and small businesses repair our broken talent pipeline Ed Gordon offers counter intuitive bottom up solutions through which corporations partner with NGOs educational groups local chambers of commerce and other stakeholders to rebuild the wellspring In the next few years the world will be facing a huge talent shortage Demographic trends in America Europe Russia and Japan are reducing the pool of new workers As the need for talent grows China s and India s educational systems won t be able to produce enough qualified graduates for themselves let alone the rest of the world But the heart of the problem is that the education to employment system worldwide is badly outmoded We re not producing graduates with the kinds of technical communications and thinking skills needed in the 21st century In Winning the Global Talent Showdown Ed Gordon surveys the sorry state of the world talent pipeline with separate chapters on the Americas Asia and Europe Each region faces its own challenges yet the result is the same a dramatic shortage of workers who can function in what Gordon calls our cyber mental age But this is fundamentally a book about solutions Gordon argues that we need to completely reinvent our talent creation system and some pioneering efforts are already underway He describes dozens of gateways to the future innovative partnerships in which local governments schools businesses labor unions parents training organizations community activists and others are collaborating to develop completely new approaches to education Based on personal experience Gordon outlines how concerned citizens can establish these partnerships in their own communities And he looks down the road to 2020 explaining how we can build on the best of these new ideas so that the jobs pipeline flows freely again     **Envy** Bob Sorge,2003-01-31 Envy might well be termed the silent sin Because while all of us envy others to some extent few of us acknowledge our problem out loud let alone try to overcome it and move forward Bob Sorge draws upon his own pastoral experience plus the admitted burden of his own envy to show why and how it can adversely affect the ministry of a church and even prevent revival in people s lives Sorge reveals why comparison of our ministry and spiritual gifts to that of our fellow believers is to be avoided at all costs so that we do not hamstring God s plan for our growth and the accomplishment of His purposes This is a must read for leaders of all churches great and small and anyone who wants the peace that comes with a life free of envy     **Future Jobs** Edward E. Gordon,2013-08-26 A pervasive disconnect exists between the job career culture and the present economic reality in America

This book offers powerful strategies for stemming the employment crisis and proposes comprehensive solutions for businesses government and job seekers alike America s low unemployment rate overshadows the fact that more than 20 million Americans are still unemployed Moreover more than eight million jobs are vacant because employers cannot find qualified candidates It is projected that if this imbalance between available positions and skills is not quickly addressed more than 14 million jobs will be vacant by 2020 and that many more people out of work In *Future Jobs* historical economist Edward E Gordon explains how increasingly complex technologies global demographic shifts and outdated education to employment systems are converging and may imminently cause a labor market crisis How can we ensure that enough people possess the skills necessary to holding the jobs of today and tomorrow This book points to a solution gaining traction across the United States Regional Talent Innovation Networks RETAINs alliances of businesses educators government agencies and nonprofit organizations that successfully bridge the talent gap Additionally it provides information on the most promising jobs and careers of the next decade for early career job seekers and for workers who are looking to change career paths
