## **Best Circular Economy:**

**Industrial Symbiosis for the Circular Economy** Roberta Salomone, Andrea Cecchin, Pauline Deutz, Andrea Raggi, Laura Cutaia, 2020-02-07 The book is designed to help public and private decision makers and academics deepen their knowledge and understanding of the contexts obstacles and challenges of a variety of business types involved in Industrial Symbiosis and Circular Economy practices Industrial Symbiosis is reported in the Action Plan on the Circular Economy developed by the European Commission in 2015 COM 2015 0614 final and in its revision of 14 March 2017 but relatively little is known of how these practices start develop or fail and mutate in a rapidly changing context Including selected contributions presented at the 24th ISDRS 2018 Conference Actions for a Sustainable World from theory to practice in the two theme tracks 5c Circular economy zero waste innovation and 5g Industrial symbiosis networking and cooperation as part of industrial ecology this book offers a transdisciplinary perspective on real experiences of industrial symbiosis performed both by industries and the scientific community best practices success and unsuccessful cases implemented or under implementation with the final aim to promote the adoption of Industrial Symbiosis as an operational and systematic tool for the Circular Economy In particular a focus on the environmental social and economic impact of Circular Economy and Industrial Symbiosis practices and how those impacts may be context and or scale dependent is given [Proceedings of the XVII International symposium SymOrg 2020](#) Dušan Starčević, Sanja Marinković, 2020-06-30 Ever since 1989 the Faculty of Organizational Sciences University of Belgrade has been the host of SymOrg an event that promotes scientific disciplines of organizing and managing a business Traditionally the Symposium has been an opportunity for its participants to share and exchange both academic and practical knowledge and experience in a pleasant and creative atmosphere This time however due the challenging situation regarding the COVID 19 pandemic we have decided that all the essential activities planned for the International Symposium SymOrg 2020 should be carried out online between the 7th and the 9th of September 2020 We are very pleased that the topic of SymOrg 2020 Business and Artificial Intelligence attracted researchers from different institutions both in Serbia and abroad Why is artificial intelligence a disruptive technology Simply because it significantly alters the way consumers industries or businesses operate According to the European Commission document titled Artificial Intelligence for Europe 2018 AI is a key disruptive technology that has just begun to reshape the world The Government of the Republic of Serbia has also recognized the importance of AI for the further development of its economy and society and has prepared an AI Development Strategy for the period between 2020 and 2025 The first step has already been made the Science Fund of the Republic of Serbia after a public call has selected and financed twelve AI projects This year more than 200 scholars and practitioners authored and co authored the 94 scientific and research papers that had been accepted for publication in the Proceedings All the contributions to the Proceedings are classified into the following 11 sections Information Systems and Technologies in the Era of Digital Transformation Smart Business Models and Processes Entrepreneurship Innovation and

Sustainable Development Smart Environment for Marketing and Communications Digital Human Resource Management Smart E Business Quality 4 0 and International Standards Application of Artificial Intelligence in Project Management Digital and Lean Operations Management Transformation of Financial Services Methods and Applications of Data Science in Business and Society We are very grateful to our distinguished keynote speakers Prof Moshe Vardi Rice University USA Prof Bla Zupan University of Ljubljana Slovenia Prof Vladan Deved i University of Belgrade Serbia Milica uri Jovi i PhD Director Science Fund of the Republic of Serbia and Harri Ketamo PhD Founder Chairman of HeadAI ltd Finland Also special thanks to Prof Dragan Vukmirovi University of Belgrade Serbia and Prof Zoran evarac University of Belgrade Serbia for organizing workshops in fields of Data Science and Machine Learning and to Prof Rade Mati Belgrade Business and Arts Academy of Applied Studies and Milan Dobrota PhD CEO at Agremo Serbia for their valuable contribution in presenting Serbian experiences in the field of AI The Faculty of Organizational Sciences would to express its gratitude to the Ministry of Education Science and Technological Development and all the individuals who have supported and contributed to the organization of the Symposium We are particularly grateful to the contributors and reviewers who made this issue possible But above all we are especially thankful to the authors and presenters for making the SymOrg 2020 a success

*Global Cooperative Economics and Movements* Jerome Nikolai Warren, Kemi Ogunyemi, Asia Guerreschi, Maciej Szulc, 2026-02-11 Cooperatives are traditionally recognized as marginal players in the economic sector but their role in policymaking and in social arenas has garnered even less attention Over the past two decades an extensive body of literature in management science and economics has arisen designating non capitalistic enterprises as subjects of particular attention In the context of rising global challenges like economic inequality environmental sustainability and labor rights the role of cooperatives has become increasingly relevant This book examines the practical and policy dimensions and implications of cooperative economics and movement s It delves into the more politicized aspects of cooperatives exploring how they intersect with global movements social justice policymaking and grassroots activism and provides insights into real struggles tackled by this enterprise form It offers an understanding of how communication in cooperatives plays a role in promoting principles values and practices and how these are transferred across generations of cooperators It provides a deeper understanding of the elements of intergenerational evolution within cooperatives in concepts on employment and labour as new policies are raising expectations Further it offers a broad variety of global case studies pertinent to issues of relevance to cooperative economics and management profiling how different types of cooperatives on six continents can promote sustainability and self organized community wealth generation connecting to development studies ethics and political economy while revealing how cooperatives can address the current challenges of the digital age especially including issues of data governance and artificial intelligence The book will serve as an invaluable tool for anyone seeking to understand the broader implications of cooperative models in today s globalized world The Open Access version of this book available at <http://www.taylorfrancis.com>

**Encyclopedia of Sustainable Management** Samuel Idowu, René Schmidpeter, Nicholas Capaldi, Liangrong Zu, Mara Del Baldo, Rute Abreu, 2023-11-21 This encyclopedia is the most comprehensive and up to date source of reference for sustainability in business and management It covers both traditional and emerging concepts and terms and is fully international in its scope More than 700 contributions of internationally renowned experts provide a definitive access to the knowledge in the area of sustainable and responsible management All actors in the field will find reliable and up to date definitions and explanations of the key terms and concepts of management in this reference work The Encyclopedia of Sustainable Management represents all aspects of management and business conduct It takes sustainability as a management concept that gives due credit to the complexity and diverging constraints in which businesses and corporations act today and it emphasizes and focuses approaches that help ensure that today s management decisions and actions will be the basis for tomorrow s prosperity

The Sustainability Handbook, Volume 2 Mark Von Rosing, 2025-06-27 The Sustainability Handbook provides a comprehensive and holistic understanding of sustainability bridging the gap between academic theory and business practices Global climate change poses enormous environmental challenges and societies across the world must adapt and innovate to further the goals of sustainability for present and future generations The private sector especially must find new ways of doing business to align their practices with the Sustainable Development Goals SDGs adopted by the international community Using a conceptually structured framework throughout the book examines the latest academic research to summarize what environmental social and economic sustainability actually means in different contexts Using numerous specific case studies and insights from industry leaders the book shows how to strategically integrate sustainability into the organization with extensive focus on policies incentives measures operations production consumption and lifecycle management Volume 2 explores the concept of Radical Sustainability within an enterprise and why it is needed With examples from zero waste to eliminating use of rare earth resources triggering sustainable practices to cause related marketing and sustainability responsibility to external transparency over internal incidents this volume offers practical solutions for those who desire to progress from a Sustainable Strategy to an effective Sustainability Portfolio Management approach Underpinned by international research based evidence it explores associated trends and drivers within the marketplace and how innovative environmental social economic and governance aspects can be considered and solutions applied For researchers students and businesspeople at all levels and sectors this handbook is an essential reference of the latest sustainability tools and methodologies required to adapt and innovate towards sustainability Provides step by step guidance on key procedures and methodologies Presents chapters that begin with a graphical representation of how the topic fits within the larger framework Includes extensive coverage of sustainability related case studies and lessons learned

*Digital Age: Chances, Challenges and Future* Svetlana Igorevna Ashmarina, Marek Vochozka, Valentina Vyacheslavovna

Mantulenko,2019-07-27 This proceedings book presents the outcomes of the VII International Scientific Conference Digital Transformation of the Economy Challenges Trends New Opportunities which took place in Samara Russian Federation on April 26 27 2019 Organized by the Samara State University of Economics the conference chiefly focused on digital economy issues such as theoretical preconditions for the development of economic systems in the digital age and specific practical issues related to real world business practice Consisting of six chapters corresponding to the thematic areas of the conference and written by scientists and practitioners from different regions of Russia Kazakhstan the Czech Republic and Germany the book offers answers to the most pressing questions for today s business community How is our world changing under the influence of digital technology Is sustainable economic development a myth or reality in the context of digitalization What threats and opportunities does digitalization bring What are realities and prospects of digitalization in the context of business practice How do we create a digital infrastructure for the economy How should the legal environment of the economy be transformed in the context of digitalization The conclusions and recommendations presented are not recipes for solving the existing economic problems but instead are intended for use in further research on transformation processes in the economy and in the development of state economic policies in various countries and regions *Sustainable Finance and the Global Health Crisis* Pasquale Marcello Falcone,Edgardo Sica,2023-08-01 The speed with which the various economies recover from the Covid 19 pandemic will significantly determine the economic pressure placed on the environment in the medium to long term Furthermore the pandemic has highlighted the strong interrelations between natural and societal systems with societal resilience depending on a resilient environmental support system In this context the book argues that the pandemic represents a wake up call for financial systems to be better prepared for the climate crisis and social risk and has provided a stimulus to scale down the reliance of the global economy on fossil fuels The first part of the book provides a deep and creative discussion between leading international researchers and experts on the policy options and financial instruments which can help to catalyze the green finance transition in the post Covid 19 era The contributions show that sustainable finance is emerging as a powerful tool to advance the transition towards a more environmentally and socially sustainable economic model Instruments such as sovereign green bonds green securities and other sustainability related securities can play a significant role in the post Covid 19 world to fund economic stimulus and to lead the way to new and more sustainable future The second part of the book supports the debate by highlighting a number of selected case studies on financing transitions in different regional contexts including Africa Asia Europe and Latin America The book marks a significant contribution to the literature on environmental economics and finance climate change and sustainability transitions Chapter 12 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license [Extracellular Polysaccharides](#) Tanmay Sarkar,Dibyajit Lahiri,Moupriya Nag,2025-09-26 [Extracellular Polysaccharides](#) A Novel Frontier in

Alternative Food Strategies represents a pioneering venture into the understudied territory of extracellular polysaccharides EPS and the potential advancements such as a reduced reliance on chemical additives that they can make in the realm of alternative food solutions This work transcends the conventional discourse on food production challenges by unveiling the multifaceted applications of EPS sourced from diverse organisms like bacteria fungi algae and plants Experts in the field navigate readers through sustainable extraction techniques nutritional insights and cutting edge technologies offering a comprehensive roadmap for revolutionizing the global food industry This book embarks beyond the theoretical delving into practical applications of EPS in various food products from enhancing textures to serving as natural preservatives Addressing current concerns in the food industry this book serves as a catalyst for change providing a holistic perspective on EPS that is both scientifically rigorous and accessible to a wide audience Researchers industry professionals and policymakers will find invaluable insights discovering novel strategies for addressing food security improving nutritional profiles and navigating the complex landscape of regulatory considerations Extracellular Polysaccharides is a guide to a sustainable and resilient food future empowering its readers to be at the forefront of innovation and positive change

**Waste to Energy in the Age of the Circular Economy** Asian Development Bank,2020-11-01 This handbook features best practices for integrating waste to energy and related technologies into the operations of various industries It discusses current technologies presents a conceptual example of municipal solid waste planning and provides commentary on waste to energy initiatives The importance of appropriate infrastructure as well as flexibility and openness to technologies and business models is emphasized The handbook and its complementary compendium of 18 projects aim to support the efforts of developing countries in Asia and the Pacific to deploy and scale up technologies relevant to the circular economy

**Circular Economy: Recent Trends in Global Perspective** Sadhan Kumar Ghosh,Sannidhya Kumar Ghosh,2021-11-23 This book presents the advantages of the circular economy as a powerful and inevitable model for tackling the current challenges against shrinking resources and establishing the resource efficient economy The experienced contributors present the status and strategies of circular economy implementation in several countries with hands on experience to protect the environment while promoting the circular economy through legislative requirements best practices adopted and popularizing the idea of circulation of resources amongst the researchers academia policy makers industry and the general public at large The book advocates model that consists of designing products and processes with a view to endlessly recycling them evolving a greater scope of sustainable development

Circular Economy and Waste Valorisation Jingzheng Ren,Long Zhang,2022-08-23 The authors and editors of this volume state that with the intensive growth of global industrialization and urbanization the consumption of various resources and materials such as energy minerals and even water is increasing at an amazing speed which poses great pressure on material resources In addition the massive utilization of materials has led to low efficiency resulting in great wastes of resources as well as serious environmental pollutions and degradation which has severely

hindered the sustainable development of economy and society In order to transit to sustainable development it is necessary to improved resource efficiency and circular economy and waste valorization are the best alternative ways for achieving this goal This book aims to provide an in depth description of circular economy and waste valorization make assessments for circular economy and waste valorization in different regions and countries and determine the technological pathways and roadmap for achieving circular economy and waste valorization More specifically 1 Conceptions and Theories Concepts and definitions of circular economy and waste valorization and their nexus and contributions to sustainable development 2 Policy and Practice Measurement and assessment of performance or sustainability for implementing circular economy and waste valorization 3 Pathways and Prospects Identification and prioritization of the barriers strategies technologies and pathways for achieving circular economy and waste valorization The book systematically and comprehensively introduces the definitions concepts framework and nexus of circular economy and waste valorization analyzes and measures their performance and sustainability and provides the methods for investigating and prioritizing the barriers and strategies and determining the pathways and roadmap for their development

**The Degrowth Economy. Strategic Path for Clothing Brands' Future and Empowerment Model for Fashion Consumers?** ,2021-08-23 Master s Thesis from the year 2021 in the subject Business economics Offline Marketing and Online Marketing grade 1 AMD Akademie Mode Design GmbH Fresenius University language English abstract This thesis aims to develop degrowth oriented business models for fashion brands that could not only bring competitive advantage to these organizations but also drive the achievement of the Sustainable Development Goals defined by the United Nations in 2015 The outcome of this thesis provides a range of design options and strategies that can be implemented by fashion brands in the degrowth framework combined within a custom buildable business model matrix An empirical research conducted with both qualitative and quantitative data assessed the developed business model matrix based on nine existing fashion organizations The results showed the existence of three observable business model archetypes presenting strong similarities with the proposed model however always limited to a very reductive approach of the degrowth economy The degrowth economy has long been undervalued by businesses considering prosperity without growth as an impossible match With the rising pressures imposed by climate change the new transformative challenges the fashion industry is facing and current shifts in consumers purchasing behaviors the degrowth economy debate appears as a relevant opportunity to initiate systemic change within the fashion industry This research highlights the need and relevance for the development of fashion business models using a more holistic approach of the degrowth economy now given possible thanks to the translation of degrowth concepts and ideas into implementable business strategies It suggests that fashion brands could get strong competitive advantages by following these recommendations and by acting as pioneers in a field that goes beyond the current understanding of sustainability in the fashion industry

Circular Economy Rajni Vohra,Violeta Bulc,2022

*Circular Economy: Global Perspective* Sadhan Kumar

Ghosh,2019-11-01 A circular economy is an alternative to a traditional linear economy make use dispose in which we keep resources in use for as long as possible extract the maximum value from them whilst in use then recover and regenerate products and materials at the end of each service life Circular economy CE is important towards sustainable development resources circulation and conservation involving closing of material loops and cascading used resources to prevent waste occurrence and transforming the resulting residual streams into new secondary resources Strategies and legislative framework for waste management are important steps for development of a more CE where resource efficiency becomes the key driver for both economic growth and environmental protections A few countries achieved good results implementing CE as a replacement of the linear economy Resource managers and planners should thoroughly identify factors to implement CE for societal benefits This book presents how resource consumption is minimized with rational use based on 3Rs legislative framework and government supports towards implementing CE initiatives example of best practices future plans and targets in different countries those are helpful for researchers planners and implementers *Simply Living Well* Julia
