Positive Psychology Ideas:

Handbook of Positive Psychology in Schools Michael J. Furlong, Rich Gilman, E. Scott Huebner, 2014-02-03 Understanding the factors that encourage young people to become active agents in their own learning is critical. Positive psychology is one lens that can be used to investigate the factors that facilitate a student's sense of agency and active school engagement. In the second edition of this groundbreaking handbook, the editors draw together the latest work on the field, identifying major issues and providing a wealth of descriptive knowledge from renowned contributors. Major topics include the ways that positive emotions, traits, and institutions promote school achievement and healthy social and emotional development; how specific positive psychological constructs relate to students and schools and support the delivery of school-based services; and the application of positive psychology to educational policy making. With thirteen new chapters, this edition provides a long-needed centerpiece around which the field can continue to grow, incorporating a new focus on international applications of the field.

Positive Psychology William C. Compton, Edward Hoffman, 2023-09-07 *Positive Psychology: The Science of Happiness and Flourishing* offers students an up-to-date and contemporary introduction to the field of positive psychology. Topically organized authors William C. Compton and Edward Hoffman examine how positive psychology relates to stressors and health within such traditional research areas as developmental, clinical, personality, motivational, social, and behavioral psychology. Updates to the Fourth Edition include new material on the spread of positive psychology around the world and expanded coverage on character strengths, emotional intelligence, leisure, and the biology of positive emotions. Included with this title: LMS Cartridge. Import this title's instructor resources into your school's learning management system (LMS) and save time. Don't use an LMS? Routledge Handbook of the Tourist Experience Richard Sharpley, 2021-11-17 *Routledge Handbook of the Tourist Experience* offers a comprehensive synthesis of contemporary research on the tourist experience. It draws together multidisciplinary perspectives from leading tourism scholars to explore emergent tourist behaviours and motivations. This handbook provides up-to-date critical discussions of established and emergent themes and issues related to the tourist experience from a primarily socio-cultural perspective. It opens with a detailed introduction which lays down the framework used to examine the dynamic parameters of the tourist experience. Organised into five thematic sections, chapters seek to build and enhance knowledge and understanding of the significance and meaning of diverse elements of the tourist experience. Section 1 conceptualises and understands the tourist experience through an exploration of conventional themes such as tourism as authentic and spiritual experience, as well as emerging themes such as tourism as an embodied experience. Section 2 investigates the new, developing tourist demands and motivations and a growing interest in the travel career. Section 3 considers the significance, motives, practices, and experiences of different types of tourists and their roles, such as the tourist as photographer. Section 4 discusses the relevance of place to the tourist experience by exploring the relationship

between tourism and place The last section Section 5 scrutinises the role of the tourist in creating their experiences through themes such as transformations in the tourist role from passive receiver of experiences to co creator of experiences and external mediators in creating tourist experiences This handbook is the first to fill a notable gap in the tourism literature and collate within a single volume critical insights into the diverse elements of the tourist experience today It will be of key interest to academics and students across the fields of tourism hospitality management geography marketing and consumer behaviour
