Big Data and Public Policy Rebecca Moody,Victor Bekkers,2023-01-27 This book provides a comprehensive overview of how the course content and outcome of policy making is affected by big data It scrutinises the notion that big and open data makes policymaking a more rational process in which policy makers are able to predict assess and evaluate societal problems It also examines how policy makers deal with big data the problems and limitations they face and how big data shapes policymaking on the ground The book considers big data from various perspectives not just the political but also the technological legal institutional and ethical dimensions The potential of big data use in the public sector is also assessed as well as the risks and dangers this might pose Through several extended case studies it demonstrates the dynamics of big data and public policy Offering a holistic approach to the study of big data this book will appeal to students and scholars of public policy public administration and data science as well as those interested in governance and politics **Financial**

Services and General Government Appropriations for 2012: Independent agencies FY 2012 budget justifications United States. Congress. House. Committee on Appropriations. Subcommittee on Financial Services and General Government,2011 **Greening government** Great Britain: Parliament: House of Commons: Environmental Audit Committee,2009-08-05 This is the Committee s eighth report on the sustainable operations on the Government estate There has been some progress against targets but the Sustainable Development Commission has found that in 2007 08 the Government was not on track to meet its target for the reduction of carbon emissions from its own buildings The Government

was on track to meet its targets for recycling and for the sourcing of electricity from renewable sources but it performed less well than it had in 2006 07 It must improve the sustainability of its operations each year The ease with which the Government continues to meet some targets even when its performance worsens indicates the urgent need for the Government to set itself more stringent targets The Government should extend the system of targets and monitoring beyond central government and agencies to the wider public sector including its outsourced operations The Government has the potential to drive change in the wider economy through sustainable procurement through investment in low carbon technologies and by driving the development of green skills in the workforce But the Sustainable Development Commission found that Government performed poorly against its own targets The Government must use its buying power to drive progress towards a greener economy Many of the changes to the governance of Government s sustainable operations have been confusing or ineffective The Government must ensure that there is a clear line of accountability for these matters and the Cabinet Office Minister responsible must take an active role in overseeing performance management
