**Perceptions of China and White House Decision-Making, 1941-1963** Adam S.R. Bartley, 2019-11-26 This book assesses and evaluates the decision making behavior of United States presidents and their chief advisers from Roosevelt to Kennedy pertaining to China Seeking to dispel with the notion that each administration sought policy outcomes on the basis of a rational decision making model Bartley highlights the contradictions of adopted presidential decision making processes and the nature of domestic politics as playing prejudicial and debilitating roles The book demonstrates that elite decision making processes interacted with assumptions made about Chinese behavior interests and attitudes only superficially and in some cases not at all Misinformation and misperception were the natural outcomes Reinforced by the politics of McCarthyism at home intellectual debate on China policy was squashed parochialism and nuance were shunned and information was closed off Ultimately a divorce between the norm of behavior and the search for rational policy was registered in each administration The net result was a lasting and destructive cognitive dissonance to fit expectations of a China reality constructed information was ignored overlooked and distorted Offering new insights into the China policies of consecutive administrations from 1941 to 1963 this volume will be of great interest to scholars and students of American foreign policy security studies and international relations

*Adventures in Chaos* Douglas J. Macdonald, Robert James Nelson, 1992 In drawing this portrait the author restores Pascal to the general reader after twenty years of scholarship that has embroiled this historic thinker in academic quarrels

The Generalissimo Jay Taylor, 2011-04-30 One of the most momentous stories of the last century is China's rise from a self satisfied anti modern decaying society into a global power that promises to one day rival the United States Chiang Kai shek an autocratic larger than life figure dominates this story

**US-China Relations** Robert G. Sutter, 2021-12-16 Much has changed in US China relations since the first edition of this book over a decade ago alerted readers to balance outwardly positive discourse in multiple bilateral dialogues with an understanding of important differences This fourth edition provides a comprehensive assessment of historical and contemporary determinants of Sino

American relations up to the present giving special focus to the recent dramatic hardening amid acute competition between the world's leading powers. The catalyst and main driver of this negative change remains a unique bipartisan Congressional Administration consensus that sees multiple challenges from China now posing an overall existential threat. Urgency to counter these challenges dominates US policy making toward China. The consensus came about despite acute partisanship and erratic presidential leadership during the Trump administration and it continues strong with the more consistent foreign policy of President Biden. China remains uncompromising forecasting continued trouble ahead. Leading expert Robert G Sutter has written the only book on the subject that combines assessment of the historical evolution in depth analysis of the many issues determining recent developments and likely prospects for US China relations going forward. His balanced study will be an essential resource for all concerned with the globe's most crucial bilateral partnership.

**Picturing China in the American Press** David D. Perlmutter, 2007-03-29. Picturing China in the American Press juxtaposes what the ordinary American news reader was shown visually in Time Magazine between 1949 and 1973 with contemporary perspectives on the behind the scenes history of the period. Time Magazine is an especially fruitful source for such a visual historical contrast and comparison because it was China centric, founded and run by Henry Luce, a man who loved China and was commensurably obsessed with winning China to democracy and Western influence. Picturing China examines in detail major events, the Korean War and Nixon's trip to China, less considerable occurrences, shellings of Straits islands and diplomatic flaps, great personages Chairman Mao and Henry Kissinger and the common people and common life of China as seen through the lenses and described by the pens of American reporters, artists, photographers and editors. Picturing China in the American Press is of great interest to both scholars of communications, Chinese history, China Studies and journalists.
