Hull,2013-12-04 Group Therapy Techniques with Children Adolescents and Adults on the Autism Spectrum is designed for psychologists counselors and social workers who are interested in using group therapy with children adolescents and adults diagnosed with autism spectrum disorders In this book Kevin Hull demonstrates the therapeutic value of group therapy with the unique population diagnosed with autism spectrum disorder Providing detailed case studies that present Hull s group therapy techniques the book covers four age groups younger children older children adolescents and adults with techniques designed for each age range and ability Sections for children and adolescents focus on the areas of emotional control and understanding of emotions increasing perspective taking and increasing self worth and self awareness The book presents bullying prevention techniques that provide children and adolescents with physical emotional and cognitive tools to overcome bullying The section for adults focuses on increasing emotional understanding and perspective taking as well as relationship building and understanding personality The book also provides guidance on how to help adults with problems of everyday living such as using community resources to assist with employment transportation and housing

Group Psychotherapy ,1952 *Group Psychology and Political Theory* C. Fred Alford,1994-01-01 In this text the author argues that the group not the individual is the most fundamental reality in society Political theorists should realize

that the group is the state of nature and that civil society is the product of the individual's attempt to develop a sense of self

Psychodrama in the 21st Century Jacob Gershoni, 2003-12-11 Print CourseSmart *Emotional Disorders in Children and Adolescents* G. Pirooz Sholevar, Ronald M. Benson, Barton J. Blinder, 2013-10-22 Emotional Disorders in Children and Adolescents states that individual psychotherapy is a nonspecific label. It is done when two people interact in a prolonged series of emotionally charged encounters with the purpose of changing the behavior of the dyad. The motives and dynamics of individual psychotherapy are explained in detail as well as the history of the approach. The book discussed the concept of child psychoanalysis. This section includes its historical background, the similarities and differences between child and adult psychoanalysis, the age of the child that should be treated and frequency of treatment. The text also covers some techniques in the application of psychoanalysis. A broad section of the volume is focused on the modification of the child's behavior as a type of treatment. This chapter is followed by a section on the behavioral approaches in adolescent psychiatry. The book will provide useful information to psychologist, psychiatrist, behavioral specialist, students and researchers in the field of psychology.

Bibliography on Group Psychotherapy, 1950 *British Journal of Psychology*, 1921 Includes Proceedings of the British psychological society Medical section **The British Journal of Medical Psychology**, 1921 The British Journal of Medical Psychology is an international journal with a traditional orientation towards psychodynamic issues. While maintaining a broad theoretical base and insisting upon sound and sensible methodology, its objective is to avoid the more simplistic approaches to psychological science. The Journal aims to bring together the medical and psychological disciplines. Collaborative studies between psychiatrists and psychologists are especially encouraged. Original theoretical and research contributions are invited from the fields of psychodynamic and interpersonal psychology, particularly as they have a bearing upon vulnerability to adjustment, to and recovery from both medical and psychological disorders. The Journal aims to promote theoretical and research developments in the fields of subjective psychological states and dispositions, interpersonal attitudes, behaviour and relationships, only if they illustrate unusual forms of psychopathology or innovative forms of therapy which carry important theoretical implications.
