A Sanctuary of Trees Gene Logsdon, 2012 Whether as an adolescent studying at a seminary or as a journalist living just outside Philadelphia's city limits Gene has always lived and worked close to the woods and his curiosity and keen sense of observation have taught him valuable lessons about a wide variety of trees their distinct characteristics and the multiple benefits and uses they have In addition to imparting many fascinating practical details of woods wisdom *A Sanctuary of Trees* is infused with a philosophy and descriptive lyricism that is born from the author's passionate and lifelong relationship with nature There is a point at which the tree shudders before it begins its descent Then slowly it tips picks up speed often with a kind of wailing death cry from rending wood fibers and hits the ground with a whump that literally shakes the earth underfoot The air in the aftermath seems to shimmy and shiver as if saturated with static electricity *Our Trees*, 1910
