Two Front War:

Chronicles of a Two-Front War Lawrence Allen Eldridge, 2012-01-18 During the Vietnam War young African Americans fought to protect the freedoms of Southeast Asians and died in disproportionate numbers compared to their white counterparts. Despite their sacrifices, black Americans were unable to secure equal rights at home, and because the importance of the war overshadowed the civil rights movement in the minds of politicians and the public, it seemed that further progress might never come. For many African Americans, the bloodshed and disappointment of war became just another chapter in the history of the civil rights movement. Lawrence Allen Eldridge explores this two-front war, showing how the African American press grappled with the Vietnam War and its impact on the struggle for civil rights. Written in a clear narrative style, *Chronicles of a Two-Front War* is the first book to examine coverage of the Vietnam War by black news publications from the Gulf of Tonkin incident in August 1964 to the final withdrawal of American ground forces in the spring of 1973 and the fall of Saigon in the spring of 1975. Eldridge reveals how the black press not only reported the war but also weighed its significance in the context of the civil rights movement. The author researched seventeen African American newspapers, including the *Chicago Defender*, the *Baltimore Afro American*, and the *New Courier*, and two magazines, *Jet* and *Ebony*. He augmented the study with a rich array of primary sources, including interviews with black journalists and editors, oral history collections, the personal papers of key figures in the black press, and government documents, including those from the presidential libraries of Lyndon Johnson, Richard Nixon, and Gerald Ford, to trace the ups and downs of U.S. domestic and wartime policy, especially as it related to the impact of the war on civil rights. Eldridge examines not only the role of reporters during the war but also those of editors, commentators, and cartoonists. Especially enlightening is the research drawn from extensive oral histories by prominent journalist Ethel Payne, the first African American woman to receive the title of war correspondent. She described a widespread practice in black papers of reworking material from major white papers without providing proper credit, as the demand for news swamped the small budgets and limited staffs of African American papers. The author analyzes both the strengths of the black print media and the weaknesses in their coverage. The black press ultimately viewed the Vietnam War through the lens of African American experience, blaming the war for crippling LBJ's Great Society and the War on Poverty. Despite its waning hopes for an improved life, the black press soldiered on.

The Myth and Reality of German Warfare Gerhard P. Gross, 2016-09-16 Surrounded by potential adversaries, nineteenth-century Prussia and twentieth-century Germany faced the formidable prospect of multifront wars and wars of attrition. To counteract these threats, generations of general staff officers were educated in operational thinking, the main tenets of which were extremely influential on military planning across the globe and were adopted by American and Soviet armies. In the twentieth century, Germany's art of warfare dominated military theory and practice, creating a myth of German operational brilliance that lingers today despite the nation's crushing defeats in two world wars. In this seminal study, Gerhard P. Gross provides a

comprehensive examination of the development and failure of German operational thinking over a period of more than a century He analyzes the strengths and weaknesses of five different armies from the mid nineteenth century through the early days of NATO He also offers fresh interpretations of towering figures of German military history including Moltke the Elder Alfred von Schlieffen and Erich Ludendorff Essential reading for military historians and strategists this innovative work dismantles cherished myths and offers new insights into Germany s failed attempts to become a global power through military means *Indian Defence Review (Apr-Jun 2020 & Jul-Sep 2020) Vol 35.2 & 35.3* Air Marshal Anil Chopra,Vice Admiral MP Muralidharan,Maj Gen SB Asthana,Terry Bishop,Jay Bhattacharjee,Gp Capt PK Mulay,Brig BS Chauhan,Danvir Singh,Lt Gen SR Ghosh,2020-09-05 Due to the lockdown applied by the Government to contain the spread of COVID 19 the second quarter issue of Indian Defence Review Apr Jun 2020 Vol 35 2 was not published It is amalgamated with issue of Indian Defence Review Jul Sep 2020 Vol 35 3 IN THIS VOLUME Did a Global Pandemic Generate a Global Pandemonium Lt Gen Dr JS Bajwa Effectiveness of India s Strategic Culture Gp Capt PK Mulay The IAF in a Two Front War Air Marshal Anil Chopra Maritime Dimensions of India s Foreign Policy Vice Adm MP Muralidharan Airspace Control Challenges and Way Ahead Gp Capt AK Sachdev Evolving Trends in Aerial Combat Air Marshal Anil Chopra Indian Model of Theatre Commands The Road Ahead Maj Gen SB Asthana Is the Indian Soldier Overloaded Right Sizing the Armed Forces Navneet Bhushan Pakistan s Mystery Submarine Lt Gen Prakash Katoch An Indian in Space Isro s Human Spaceflight Programme Gp Capt Joseph Noronha Indian Defence Private Sector Some Initial Successes yet Miles to Go Lt Gen VK Saxena The Coronavirus Pandemic and The New Global World Lt Gen Jasbir Lidder The Myth of China Dr Rajasimman Sundaram Line of Actual Control Fast Forward to Summer of 2021 Lt Gen Dr JS Bajwa Touted as a peace deal the Taliban celebrates U S withdrawal as a victory Terry Bishop Afghanistan An Arena of Indo Pak Conflict Col RN Ghosh Dastidar What will happen if India recognizes Tibet Dr Amarjit Singh The Critical Factors that Contribute to a Country s Military Strength Jay Bhattacharjee Aerospace and Defence News Priya Tyagi Indian Quest for Air Supremacy The Rafale Danvir Singh Shifting Claim Lines of Nepal Kalapani to Lampiyadhura a Historical Perspective Brig BS Chauhan Free Tibet Lt Gen Prakash Katoch The Last Gallop Lt Gen SR Ghosh Book Reviews **Interior Department Appropriation Bill for 1946** United States. Subcommittee on Interior Department,1946 **Wellington's Two-Front War** Joshua Moon,2012-09-13 Sir Arthur Wellesley s 1808 1814 campaigns against Napoleon s forces in the Iberian Peninsula have drawn the attention of scholars and soldiers for two centuries Yet until now no study has focused on the problems that Wellesley later known as the Duke of Wellington encountered on the home front before his eventual triumph beyond the Pyrenees In Wellington s Two Front War Joshua Moon not only surveys Wellington s command of British forces against the French but also describes the battles Wellington fought in England with an archaic military command structure bureaucracy and fickle public opinion In

this detailed and accessible account Moon traces Wellington's command of British forces during the six years of warfare against the French. Almost immediately upon landing in Portugal in 1808, Wellington was hampered by his government's struggle to plan a strategy for victory. From that point on, Moon argues, the military's outdated promotion system, political maneuvering, and bureaucratic inertia, all subject to public opinion and a hostile press, thwarted Wellington's efforts, almost costing him the victory. Drawing on archival sources in the United Kingdom and at the United States Military Academy, Moon goes well beyond detailing military operations to delve into the larger effects of domestic policies, bureaucracy, and coalition building on strategy. Ultimately, Moon shows that the second front of Wellington's two-front war was as difficult as the better-known struggle against Napoleon's troops and harsh conditions abroad. As this book demonstrates, it was only through strategic vision and relentless determination that Wellington attained the hard-fought victory. Moon's multifaceted examination of the commander and his frustrations offers valuable insight into the complexities of fighting faraway battles under the scrutiny at home of government agencies and the press, issues still relevant today. *Face Off!* Ravi Rikhye, 2021

America's Two-Front War. U. S. Military, Department of Defense (DoD), U. S. Government, 2018-04-05. This unique book examines the role of the American media in shaping coverage of military operations and wars. The Vietnam War demonstrated how critical American public support is to sustaining successful military operations. Empowered by their experience and effect on the American public during the Vietnam War, America's media has maintained a second front against the U. S. military by targeting its center of gravity, attempting to influence American public support against military operations. As a result, the military has been forced to fight a two-front war. In addition to its battlefield strategy, the military must fight to protect its center of gravity: American public support. The thesis of this paper is that the U. S. military must reduce the vulnerability of its center of gravity to U. S. media assaults by operating in a manner consistent with public expectations of the military and by ensuring the American public understands military goals and operations. In short, if the public understands the military's mission, how the military has accomplished that mission, and the behavior of its forces, public support should be strong enough to withstand the media's assault. This paper begins with an analysis of the relationship between the military and the media and its effects on the American public. It provides a deeper look at how and why the American public is targeted by both the military and the media. Following that analysis, the paper examines public support for major military conflicts from Vietnam to the Global War on Terrorism (GWOT). This examination is not designed to document military-media relations as much as it is to show how the military has protected or lost its center of gravity. Since the conflict between the military and the media is unlikely to change, this paper concludes by addressing the means by which the military can ensure its behavior is consistent with public expectations and how to better articulate its goals and operations to the American public in order to secure its center of gravity and maintain public support. Escaping the Deadly Embrace Andrea Bartoletti, 2022-11-15. Encirclement, Andrea Bartoletti argues, is an essential strategic possibility of the international system.

and a key trigger of major war Using historical case studies Escaping the Deadly Embrace examines how great powers try to escape the two front war problem and seek to preserve their security Encirclement is a geographic variable that occurs in the presence of one or two great powers on two different borders of the surrounded great power The surrounding great powers may not have the capacity to initiate a joint invasion Yet their threatening presence triggers a double security dilemma for the encircled great power which has to disperse its army to secure its borders When the surrounding great powers become capable of launching a two front attack the encircled great power initiates war This situation disastrous in itself can also lead to war contagion when other great powers intervene in the new conflict owing to the rival based network of alliances Combining archival work and historiographical analysis Escaping the Deadly Embrace demonstrates the efficacy of this by assessing three major wars the Italian Wars the Thirty Years War and World War I These findings Bartoletti shows have important implications for future major wars Challenging the current focus on the US China rivalry he argues that the most concerning strategic scenario is the encirclement of China by India and Russia [A Two Front War?
