Tyrones Story:

Writing to Survive Deborah M. Alvarez,2011-01-16 This ethnographic research investigates how adolescents use writing Deborah M Alvarez uncovers the hidden abuses and violence that adolescents bore with each school day In two different research sites the author follows adolescents through their academic and personal lives to discover how they use writing only to uncover the impact the public and private violence had upon their ability to learn The author details the writing classroom practices assignments and how adolescents adapt reconstruct and appropriate the lessons of the classroom for their purpose and needs For the adolescents in the book writing was a way to address the stresses that plagued the adolescents each day especially when they had no other way to communicate or tell about their lived experiences Alvarez outlines an alternative Expressivist plan for teaching writing to adolescents This writing program builds upon the evidence from the case studies brain theory and research on traumatic stresses to offer teachers and thereby their students a more effective way to teach writing with greater impact for those who need it most Sensory Dinosaurs Jill

Christmas,2017-07-05 This is an engaging and thoroughly well thought out book that will help teachers parents carers and children in understanding why some children struggle in school as a result of sometimes undiagnosed or unrecognised challenges A short description of a sensory motor condition precedes each story the challenges faced described through a variety of dinosaur characters The story is followed up with a worksheet for the child and supporting adult to work through and there are practical strategies recommended for both school and home Each dinosaur has a different sensory condition for example Terri dactyl who is afraid of heights and flying because his balance system is very sensitive and he can t join in with his friends because of his difficulties Other dinosaurs and their conditions include Developmental Coordination Disorder Dyspraxia proprioception Sensory processing Sensory Integration Disorder Asperger s syndrome Self Esteem Issues Joint hypermobility Dyslexia and Balance difficulties The strategies are advisory only but simple and practical enough to be incorporated within a school or home setting with the minimum of cost Sensory Dinosaurs provides an excellent platform for positive participation by the child in exploring the challenges they personally experience **Beginning Reading and Writing** Dorothy S.
