Ultimate Oddman Out:

James Mason Sarah Thomas,2019-07-25 Sarah Thomas's study moves beyond the image of the brooding destructive man at odds with employers and his own star status to explore the complexity of Mason's career and star persona Her analysis is structured around three strands central to understanding stardom the star persona industry and power and screen performance Thomas addresses the incredible range of Mason's star career 1930s quota quickies 1940s Gainsborough melodramas the desperate IRA man in Carol Reed's *Odd Man Out* 1947 from the 1950s onwards Hollywood classics including starring in Hitchcock's *North by Northwest* 1959 and playing Humbert Humbert in Kubrick's *Lolita* 1962 She also considers in depth his undervalued post 1962 career off screen celebrity status non film work comic and vocal performances and the star's own self commentary In doing so she offers a new perspective on such subjects as power and powerlessness public image and national identity contextualizing Mason's career in wider histories of British American and European transnational filmmaking [The Silent Films of Harry Langdon \(1923-1928\)](#) James L. Neibaur,2012-07-06 Harry Langdon was a silent screen comedian unlike any other Slower in pace more studied in movement and quirkier in nature Langdon challenged the comic norm by offering comedies that were frequently edgy and often surreal After a successful run of short comedies with Mack Sennett Langdon became his own producer at First National Pictures making such features as *Tramp Tramp Tramp* *The Strong Man* and *Long Pants* before becoming his own director for *Three's a Crowd* *The Chaser* and *Heart Trouble* In *The Silent Films of Harry Langdon 1923-1928* film historian James Neibaur examines Langdon's strange fascinating work during the silent era when he made landmark films that were often ahead of their time Extensively reviewing the comedian's silent screen work film by film Neibaur makes the case that Langdon should be accorded the same lofty status as his contemporaries Charlie Chaplin and Buster Keaton With fascinating insights into the work of an under appreciated artist this book will be of interest to both fans and scholars of silent cinema *Watching Cosmic Time* Matthew Dwight Moore,2022-10-26 How do the suspense films of Alfred Hitchcock Orson Welles and Carol Reed allow us special insight into the popular mentality of their contemporaries contemporaries who went to war against the forces of Adolf Hitler How did midcentury films that fetishized clocks and time keeping devices as diverse as *Peter Pan* *High Noon* *Rear Window* *Shadow of a Doubt* *The Stranger* and *Odd Man Out* produce unique experiences that invited audiences to literally watch cosmic time What role did cinema audiences play in perpetuating the presumption that order exists in the universe and how have the polyvalent institutions of church and state implicated human agency in such perpetuation This full length academic treatment of the topic employs formal film analysis that is situated squarely within historical studies and addresses these cinematic and phenomenological questions and more *Year's Best SF 5* David G. Hartwell,2009-10-13 Experience New Realms Acclaimed editor and anthologist David G Hartwell returns with this fifth annual collection of the year's most imaginative entertaining and mind expanding science fiction Here are works from some of today's most acclaimed authors as well as visionary new

Law in Civil Society Richard Dien Winfield, 1995 Law in Civil Society advances a new and comprehensive theory of how legal institutions should be reformed to uphold the property family and economic rights of individuals in civil society In so doing it offers a powerful challenge to the dominant legal theories and practices espoused by liberalism positivism natural law and critical legal thought Winfield argues against the prevailing assumptions of legal philosophers who dogmatically embrace formal or historical conceptions of law True law he contends must be constructed within the context of the different spheres of rights and ultimately can only exist within a civil society committed to self-determination and community Working from these fundamental premises he analyzes in detail a rich array of important legal issues fair access to legal representation the rationale for jury trials appropriate distinctions between civil and criminal legal procedures the controversies pitting common law versus codification and adversarial versus inquisitorial systems of trial and the relationship between civil society and the state Much inspired by Hegel's Philosophy of Right Winfield's study offers the most convincing critique yet of that renowned philosopher's work and in the process provides a more complete and coherent conception of law than Hegel himself articulated Provocative and highly instructive the book should attract scholars teachers and students in legal and political philosophy and anyone else with an abiding
