NAMBUUSI, 2015-05-09 In every person's weakness there is a hidden strength That strength remains hidden only because we are conditioned as humans to make our struggles work against us rather than for us We become comfortable with Living the average life Hopefully this will no longer be the case for you after reading this book **Voyage in Destiny** Francesco Alessandrini, 2011-05-26 Every one of us has a destiny Writing this book is part of my destiny that places knowledge among the priorities of my work This text is dedicated to what the Masters of Light of high level have been transmitting to me for around three years Its main feature is to make man understand that we are at a moment in our history in which we need to return to true knowledge or more so to a way of seeing and interpreting the reality of creation which does not start solely from man's point of view but from a wider vision which comes from the spirit world This book talks about a re opening to a different way of knowing and begins to retrieve some aspects of this true knowledge Among them certain tools of knowledge shall be rediscovered such as the voyages of the mind in a non rational setting or intuition or the recognition and interpretation of signs which a wider reality continually shows us The main features of human knowledge will be analyzed its limits its openings and the urgings it is subjected to in order to continuously exceed itself miracles the sense of mystery It attains the understanding of what should be true knowledge the use of the symbol and the possibility of fitting into a time which is beyond the linear time we are so used to Some aspects of this knowledge such as the mental and energetic dynamics of thought a new concept of truth a new concept of the relationship between good and evil love death union and path will be introduced This book should entice us to intuit the existence of a much vaster Creation than the one we are used to and to lay the basis for a more correct interpretation of it **Voyage in Destiny – Part Three** Francesco Alessandrini, 2011-12-29 Destiny has placed knowledge

among the priorities of my work This text the third in a series is dedicated to what some very high level Masters of Light have been transmitting to me for several years It represents a chapter of my voyage into knowledge knowledge that comes from a wider view of worldly things than that which is normally available to man new knowledge but at the same time ancient Here I approach the study of three ancient artifacts I analyze the famous Zodiac of Dendera in Egypt a very much studied but at the same time misunderstood bas relief that I later renamed the Great Message of Dendera for the incredible meaning that I found in it Then I approach the study of the Sumerian Weld Blundell prism a terracotta prism with cuneiform writing the translation of which has left all the researchers who have been challenging themselves with its interpretation confused to say the least it is an absurd list of multi millennial antediluvian kings Finally I analyze a little known monument of Copacabana on Lake Titicaca in Bolivia called the Horca del Inca which I then renamed the Antenna of Copacabana The analysis of these findings initially took place with the attitude of the meticulous researcher but soon began to flow towards the search for the general meaning of the work analyzed A meaning that partly supported by logical considerations and partly by an entirely new research approach that we can call the historical intuitive method points out that ancient man was endowed with knowledge about the meaning and purpose of Creation much more advanced than that which is at our disposal today The rediscovery of this knowledge and of the method of obtaining it is the only possibility that remains to prevent our planet from being destroyed by humans who have lost track of what their purpose is and which direction to take

The Voyage of Destiny Adam Ahmed,2016-01-21 Cultural differences are important in our world can improve knowledge and build bridges between ignorance and understanding This book contains seven short stories that describe Darfuri village life and presents a people before conflict It is a testimony of traditions and customs that disappeared because of war The author believes that writing these stories helps keep traditions alive and preserve a way of life stolen by the ongoing conflict that started in 2003 Understanding people s cultural backgrounds is especially important now after the recent wave of immigration and the growing population of refugees around the world This book aims to present those different backgrounds as cultural wealth and help people avoid conflict through understanding and human connection

Destiny's Journey Alfred Döblin, 2019-08-16 *Destiny's Journey* is a memoir reconstructed partly from notebooks that Döblin kept from the time he worked in the French Ministry of Information in the spring of 1940 and partly written without notes in Los Angeles where he took refuge during the Second World War It tells the personal and generational story of the flight of Jewish and anti Nazi intellectuals from Europe to America their fear and frustration isolation and inability to work Döblin's story differs from that of other Jewish intellectuals and artists in that his family converts to Catholicism in Los Angeles Unlike most of them he returns to Europe as an officer with the French forces and works on denazifying German literature The conversion narrative bridges the departure from and return to Europe To critic John Simon the latter part of the book often reads like a shrill piece of Christian homiletics But even this is not without interest as it traces the transformation of an anarchic outsider into a dogmatic insider The first part of *Destiny's Journey* about Döblin's departure from Paris in 1940 is magisterial acidly observed saturated in telling detail grimly comic and harrowing with an exemplary introduction by Peter Demetz an important nourishing book John Simon *The New York Times*
